 Give your household item a second chance at life!

 We ask each citizen to take waste reduction measures, if possible. Many household items can be given a second life through donation to a non-profit, church, neighborhood group, school, thrift store, etc. Appliances can be recycled for metal.

- **Yard Waste** collections and **Green Bulk waste** will be collected on regularly scheduled day

 Backyard Composting

 Spring and summer are a great time to compost your food waste and yard waste. Together they make a great partnership in creating mulch and compost.
