QUESTIONS / RESPONSES

Questions: What are the dimensions of the rise and run on the concrete footings (depth of each step-level from front to back, and height of each step-level)? Are there any steps or areas that deviate from the rest? Is all of the concrete even-leveled where all of these planks & brackets will be attached? If not, this project won't work the way you have it outlined.

Response: **The Department feels that it would be best for interested vendors to set up a site visit to examine the area and take measurements.**

SPECIFICATION CHANGE

The specifications have been amended as follows:
