SINGLE AUDIT INFORMATION

The seal of Columbus, Georgia, is a large, faint watermark in the background. It is circular with a rope-like border. The text around the border includes "COLUMBUS, GEORGIA" at the top, "MULDOGE COUNTY 1825" on the right, "CONSOLIDATED GOVERNMENT 1828" at the bottom, and "1971" on the left. In the center of the seal is a ship on the water.

Columbus, Georgia

Georgia's First Consolidated Government

P.O. Box 1340, Columbus, Georgia 31902-1340

Honorable William J. Wetherington, Mayor
Members of Council, and
Citizens of Columbus, Georgia

December 16, 2010

Ladies and Gentlemen:

I am pleased to present for your consideration this Comprehensive Annual Financial Report of the Consolidated Government of Columbus, Georgia for the fiscal year ended June 30, 2010. State law requires that every general-purpose local government publish within six months of the close of the fiscal year a complete set of audited financial statements. Responsibility for both the accuracy of the data and the thoroughness and fairness of presentation including all disclosures rests with the Consolidated Government. I believe the data as presented is accurate in all material aspects, and that it is presented in a manner which presents fairly the financial position and results of operations of the Consolidated Government of Columbus, Georgia as measured by the financial activity of its various funds. All disclosures necessary to enable interested citizens to gain a reasonable understanding of the Consolidated Government's financial affairs have been included.

Albright Fortenberry & Ninas, LLP, Certified Public Accountants have issued an unqualified ("clean") opinion on the Columbus Consolidated Government's financial statements for the year ended June 30, 2010. The independent auditor's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides an analysis of the past year's operations of general government and major enterprise activities, and an overview of the Consolidated Government's current and future economic picture as well as its major initiatives and financial accomplishments for the year. MD&A complements this letter of transmittal and should be read in conjunction with it.

The Columbus, Georgia Consolidated Government receives federal financial assistance through various federal grant programs. An audit in accordance with the Single Audit Act of 1984, P.L. 98-502, and Office of Management and Budget (OMB) Circular A-133, "Audits of State and Local Governments and Non-Profit Organizations", and "Government Auditing Standards" issued by the Comptroller General of the United States has been performed for the fiscal year ended June 30, 2010. The required reports on supplementary information, compliance, and internal controls along with various supplementary schedules will be provided under a separate report cover.

Reporting Entity

Columbus is a political subdivision of the State of Georgia created by virtue of a Constitutional Amendment authorizing the consolidation of the County of Muscogee with the City of Columbus, as ratified in a general election held on November 5, 1968. The General Assembly of the State of Georgia pursuant to powers in the Constitutional Amendment created a Charter Commission, which prepared and submitted a Charter for the Consolidated Government of Columbus. This Charter was ratified in an election held on November 3, 1970. Commencing January 1, 1971, Columbus became a consolidated city-county government, its territorial limits covering all 220 square miles of what had been Muscogee County. Bibb City, a small textile community within the consolidated territory, requested that the State of Georgia repeal its charter effective January 1, 2001 and requested that the Consolidated Government assume responsibility of providing

municipal services to Bibb City residents. The Georgia General Assembly passed House Bill 205, Act No. 36 on January 31, 2001 to repeal the charter of the Town of Bibb City and provided for the disposition of the assets, property, liabilities, and legal rights of the town.

Columbus is governed by a mayor and ten council members elected by the voters. The Mayor serves a four-year term, and is the official spokesman for the consolidated government. The Mayor also functions as Public Safety director. Members of the City Council serve four-year staggered terms. The eight district councilors represent specific districts within the territorial limits of Columbus. The two councilors-at-large are elected from the various districts. The City Manager is appointed by the Mayor and confirmed by Council, and is responsible for the day-to-day operation of the government.

The Columbus Consolidated Government provides a full range of services to its citizens. This includes public safety (police, fire, and emergency medical services), transportation, sanitation, judicial, health and social services, recreation, community development and other general governmental services. In addition, Columbus operates a public transportation system, downtown parking garages, a civic center, and an integrated waste management system as business enterprises. The financial statements in this report include all of these functions and activities of the government.

In addition to these activities, the Consolidated Government has financial accountability for other organizations and financial units based on its ability to appoint a voting majority of the organization's governing body, and effectively impose its will on the organization. Also, financial accountability exists where there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the Consolidated Government. Based upon the application of these criteria, financial statements of certain organizations have been included in this report as part of the reporting entity. The following functions and activities have been included.

Consolidated Government of Columbus, Georgia Public Employees Retirement System

Columbus Golf Authority - component unit

Columbus Iron Works Convention and Trade Center Authority - component unit

Columbus Convention and Visitors Bureau - component unit

Columbus Building Authority

Columbus Water Works - component unit

Hospital Authority of Columbus - component unit

Columbus Airport Commission - component unit

Columbus Department of Public Health - component unit

General Information

Planned for growth from the beginning, Columbus has become a city of regional importance. From its conception in 1828 by the Georgia state legislature, Columbus has become the state's third largest city, serving 190,000 citizens. Located on the east bank of the Chattahoochee River, which is the Georgia-Alabama state boundary, Columbus draws commercial activity from east Alabama as well as west Georgia. Columbus is the hub of an MSA that includes Phenix City, Alabama and the Fort Benning Military Reservation as well as surrounding counties that are linked socially and economically to Columbus. The city is located approximately 110 miles southwest of Atlanta and 85 miles east of Montgomery.

In 1971, Columbus became the first city in the State of Georgia and the 17th in the nation to have a city-county consolidated government. As such, it has all of the governmental and corporate powers, duties, and functions formerly held by the City of Columbus and Muscogee County.

Columbus is unique in Georgia in the authorized method of taxation allowed by the Constitutional Amendment and the Charter. The Charter authorizes the creation of urban service districts and empowers Columbus to vary the rate and manner of taxation in each district to reasonably reflect the degree and level of services provided. As a result, citizens pay taxes only for those services that they receive.

The population of Columbus has risen slowly, from 179,278 in 1990 to 186,291 in 2000 to the current U.S. Census estimate of 190,414. This slow rate is mainly because more residents are moving out of Columbus to new residential areas in the outlying counties. But the population is expected to increase significantly—by as many as 28,000—over the next few years as a result of expansion at Fort Benning due to the decision of the Base Realignment And Closure Commission (BRAC) to move over 10,000 troops, civilian personnel, and their families to Fort Benning.

Natural Features & Land Use

Columbus is located on the Fall Line, the natural division of the Piedmont Plateau of north Georgia and the Coastal Plain of south Georgia and Florida. Its physical features include steep slopes in the north, transitioning to level terrain in the south. Several streams and creeks provide good natural drainage to the Chattahoochee River. Columbus owes its existence to the Chattahoochee River, as it was developed at the northernmost point of navigation on the river, making Columbus an important trading post during the 1800's. Columbus became a major industrial center, using the river for both transportation and to power numerous mills and factories along its banks.

With Phenix City to the west and Fort Benning to the south and southeast, most of the growth of Columbus is left to the north and northeast sections of the city. This has resulted in the need for intensive infrastructure improvements in these areas and has also raised concern among citizens in the south regarding lowering economic conditions, as more businesses move to the north. The Columbus Consolidated Government is working diligently with public-private partnerships, such as Columbus South, Inc., and Midtown, Inc., to help revitalize these areas.

Most of Columbus' historic residential, commercial and public buildings are located in the central portion of Columbus. Columbus State University has made a great investment in downtown Columbus and has completed the renovation of several historic manufacturing and warehouse buildings for the purposes of classrooms, arts centers, and loft dormitories. Other similar buildings have been or are being transformed into loft apartments, antiques malls, or motels. Beginning with the Springer Theatre (The State Theatre of Georgia) and the Columbus Iron Works Trade and Convention Center, Columbus has long recognized the importance of preserving and using its historic resources.

Economic Condition & Outlook

Columbus is the center of a four-county metropolitan statistical area comprised of Muscogee, Harris and Chattahoochee Counties in Georgia and Russell County in Alabama. Columbus provides the economic foundation of a much larger area, however. Columbus serves as the trade, distribution, manufacturing, medical and financial center for a twenty-six county area of Georgia and Alabama. Columbus includes approximately 20% of the MSA land area and approximately 68% of the MSA population.

The best way to describe the city's reaction to the national economic climate that remained throughout the fiscal year is "weathering the storm." While the downturn hit the city hard, it was not as significant as in many parts of the nation, due to the economic activity taking place within the local area over the past few years. For the first time in three years, the value of new construction permits increased instead of decreased, but still remained at about half of recent levels. The actual number of new construction permits decreased, from 857 to 775, but the dollar value of those permits increased over 2009 from \$127,277,866 to \$150,660,792 (18%). The number of new single-family dwelling permits rose slightly,

from 295 to 314, with a modest 25% increase in valuation from \$44,318,706 to \$55,288,984. The value of multi-family residential permits increased 32% from \$27,391,003 to \$36,193,671. Permits for amusement/recreation buildings, churches/other religious buildings, hospitals and institutional buildings, offices/banks and other professional buildings, and additions and repairs to non-residential buildings increased by a total of \$46.3 million over the previous year, while permits for motels, schools, and retail construction decreased by a total of \$32 million. Still, in light of current economic conditions, the net increase in construction permits is a positive sign, and can be traced primarily to the growth in Fort Benning from BRAC and the recent business expansions in the area, particularly KIA, AFLAC, and NCR.

Unemployment climbed and fell throughout the year, ending at 9.0%, which is slightly better than the 9.7% unemployment at the beginning of the year, and below the state's unemployment rate of 10.2% and below the nation's seasonal-adjusted rate of 9.7%. Columbus' civilian labor force decreased by 600 to 85,988, with a civilian employment of 78,221, which is a decrease of only 40 jobs from the same time a year ago. Unemployment was slightly higher for the MSA, at 9.2 percent, with a civilian labor force of 129,598 and employment of 117,658, a decrease of 799 jobs from the same time a year ago. Yet neighboring Harris County, which is part of the Columbus MSA, had one of the best unemployment rates in the state, at 7.0%, due largely to the number of businesses locating in Harris County as a result of the nearby KIA plant opening. The fiscal year ended with 1,209 initial unemployment claims for the month of June, which was an increase of 243 claims over the month of May, but a decrease of 218 claims from a year ago.

Columbus-based insurer, AFLAC, is currently in Phase Three of the largest current expansion project in the state. To be completed over a five to seven year span, the project will add 340,000 square feet of office space (bringing AFLAC's total of local space to over a million square feet) and will accommodate 2,000 new employees. The completed construction and recent startup of the Kia Automotive plant in nearby West Point, Georgia (about 45 miles away) has already begun to have a positive effect on the MSA economy, as several automotive suppliers have begun to locate in various cities and counties within or just outside of the MSA. It is anticipated that the Kia plant and its suppliers when fully operational will bring almost 5,000 jobs and a capital investment of \$1.2 billion to the area.

Other new projects or expansions reported in 2010 were significantly down from previous years, with a total dollar value of \$18,950,000, compared to \$136,200,000 announced in 2009. The largest of these announcements is a \$3 million dollar expansion for Kysor/Warren expected to add 200 jobs in the fall of this year and a \$3.5 million relocation of the automotive firm DMI, expected to result in 311 jobs. It should be noted, however, that several of the major announcements from 2009, including the NCR relocation expected to create a total of 872 jobs when completed, are still under way.

Columbus continues to be a mostly service-oriented economy, with 69.3% of the workforce involved in service occupations (including 13.4% in healthcare services, 11% in retail, and 10.7% in accommodation and food services, which remain as the largest three sectors of employment in the area). Accommodation and food services continues to be the fastest growing industry in terms of job growth in the area.

The numbers reflecting the impact of BRAC on the local economy continue to be breathtaking. The independent Base Realignment And Closure Commission (BRAC) was given the task by the Pentagon of streamlining and reorganizing military structure for cost savings as well as improved operation. Their chief task was the elimination of excess infrastructure and the maximization of retained infrastructure. The Columbus MSA will be a key beneficiary of BRAC because many of those programs and personnel—including the U.S. Army Armor Center currently based at Ft. Knox—will be relocated to Ft. Benning. Additional growth is anticipated at Ft. Benning by the closure and consolidation of overseas bases. When these changes are phased in over the next several years, the results will be extremely beneficial to the Columbus MSA.

Ft. Benning is expected to receive an additional 5,125 military personnel and 5,158 government civilians, construction and maintenance contractors, defense contractors, and realty workers. These 10,283 workers will bring with them an estimated 17,263 family members, resulting in an increase in the population of the Columbus MSA of 27,546. In addition to this increase in the permanent population, an additional 29,000 soldiers will be passing through Ft. Benning every year in training and schooling. These increases are expected to result in the creation of 4,000 indirect jobs. In addition to the \$100 million expansion to the National Infantry Museum completed and opened during the previous fiscal year, the relocation of the National Armor Museum—with a price tag of \$75 million—along with the Armor School will result in additional construction spending, additional tourism, and additional employment.

The growth at Ft. Benning will result in regional economic growth, impacting housing, public education, the workforce, healthcare delivery, transportation programs, and construction trades among other areas and markets. This will create many opportunities as well as challenges for community leaders in the six Georgia and three Alabama counties that will be impacted by this growth.

BRAC-related construction is continuing at a pace of \$2 million dollars a day and involving 2,000 workers. Over 140 miles of new roads and trails are being built. Thirteen new bridges are also being constructed. Over 20,000 acres are being re-shaped. Six million additional square feet of building and facilities space is being constructed. The Martin Army Hospital is being rebuilt at a cost of \$570 million. When complete, the number of personnel trained annually at Fort Benning will increase from 114,000 to 144,000. The graduation ceremonies of these trainees alone brings in over a million dollars a month in economic benefit to the area, and are expected to bring in an additional half million visitors annually to the area. The annual economic benefit to the area that Fort Benning provides will increase from the current level of \$3.5 billion to \$5.972 billion once the BRAC expansion is complete. This includes a \$25- to \$35-million dollar increase in Fort Benning's monthly payroll of \$110 million per month. Already, there are over 2,400 more employees working on Fort Benning than when BRAC was first announced.

Another economic boost brought about by BRAC is the number of defense contractors who will relocate or set up shop in the area to provide services for Fort Benning. The combination of the Infantry Center with the Armor School to become the Maneuver Center of Excellence will create an estimated 4,800 defense contractor jobs in areas such as combat vehicle maintenance, green construction of facilities, modeling and simulation of equipment, information technology, and research and development. One example of this is the defense contractor, Raytheon, which opened its Soldier Works facility in Columbus, expected to train 500 personnel annually supporting the demonstration and testing of next-generation battlefield solutions for soldiers. Another example is the announcement by Columbus State University of plans to develop an 80-acre technology park just outside Fort Benning to attract defense contractors and develop educational facilities for the university to work with these companies. A third example is a recent job fair held by Lockheed Martin, for the prospective hiring of around 120 workers who will be needed if Lockheed is awarded the additional contracts that they are targeting.

The most noticeable changes from BRAC will begin in March of 2011, when the primary movement of families into the area begins. The deadline for all BRAC changes to be completed is September of 2011. In other words, Fiscal Year 2011 promises to be one of intense activity for Fort Benning, Columbus, and the local area.

According to the Valley Partnership, the combined effect of BRAC, the Kia plant, and AFLAC's expansion will result in 16,000 new jobs, a \$4.2 billion capital investment, a population increase of 41,235, including 16,234 new family units, a school enrollment increase of 9,400, a \$416 million increase in retail sales resulting in \$24 million in increased sales tax revenues, \$482 million increase in annual personal income, and a \$781 million increase in bank deposits created.

Columbus continues to receive positive national attention from outside sources. In April the city was named one of the country's top 100 places to live by RelocateAmerica. According to their website, the cities are rated based on "strong local leadership, employment opportunities, thriving community commitment, improving real estate markets, growing green initiatives, plentiful recreation options, and an overall high quality of life." Columbus was one of three Georgia cities to make the list. RelocateAmerica provides assessment services for people looking to move to another area. Also, the city received a Number One ranking from Manpower for having the highest net employment outlook for the first quarter of 2010. Of all businesses surveyed, 25% were expecting to hire employees during the next year, while 7% were expecting to decrease the number of employees they had, arriving at a Net Employment Outlook of 18%. Not only was this the highest in the country, but it was 50% higher than the second-highest result of 12%, belonging to San Antonio, Texas.

The city continues to place emphasis on development of economically disadvantaged areas through the designation of Enterprise Zones and other related activities. Businesses locating or expanding in the Enterprise Zones qualify for tax incentives through the Georgia Enterprise Zone Employment Act of 1997.

Major Initiatives

During the 2010 fiscal year work on several significant events, programs and capital projects was continued and/or completed.

The American Recovery and Reinvestment Act of 2009 was passed by Congress and signed into law by President Obama on February 17, 2009. This act provided over \$780 billion in funding to help stimulate the economy during the economic downturn of the time. The Columbus Consolidated Government took initiative to take advantage of as much of this funding as possible to help with major infrastructure improvements and capital projects while providing a boost to the local economy. The city applied for over \$87 million in funding for a wide range of projects ranging from job training programs to transportation programs to community development programs. To date, \$26.4 million of this funding has been approved, \$30.8 million not approved, and \$30 million is still pending. Stimulus projects underway in FY10 included \$1.25 million for the Fall Line Trace walking/biking trail, \$1.25 million for the Veterans Parkway Streetscapes project, \$1.225 million for neighborhood revitalization and homelessness prevention, \$2.8 million for METRA buses and enhancements, \$1.8 million for energy efficiency and conservation programs, \$1.9 million for job training and assistance programs, and \$666,900 for law enforcement, courts, prosecution and drug prevention programs. Projects to be started in the near future include \$3.2 million for an intelligent transportation system on Veteran's Parkway, \$2 million for the I-185 Gateway entrance to Fort Benning, and \$3.35 million for renovation of the 14th Street Pedestrian Bridge over the Chattahoochee River. The current status of all of the City's ARRA stimulus programs can be monitored on the City's website.

Another example of the city's strong track record of partnering with the community to provide its own stimulus for economic growth is the Chattahoochee River whitewater project that was formally announced in FY 2010. This is a \$23 million dollar project that the city has committed \$1.66 million to for each of the next three years, with the remaining funds to be raised from private sources and federal grants. The project involves breaching two small dams on the river and reconstructing much of the river bottom to create a world-class 2.5 mile whitewater course that is expected to create a \$42 million annual economic impact to the city, including 144,000 out of town visitors, \$300,000 in lodging taxes, \$1.7 million in sales taxes, and the creation of 700 jobs. Once again, the Chattahoochee, to which Columbus owes its founding and location, becomes a major partner in Columbus' future.

On July 15, 2008, voters approved a new 1% Other Local Option Sales Tax (LOST), to take effect on January 1, 2009. It is the intent of the Consolidated Government for 70% of the funds raised to be used for public safety, and the remaining 30% for infrastructure improvements. Significant among the public safety plans was the hiring of 100 new police officers, which began during FY09 and is mostly complete as of the end of FY10.

On November 2, 1999, the voters of Muscogee approved a special one percent retail sales and use tax to raise \$255,441,322 for various capital outlay projects, including but not limited to a new high-tech library/learning center, road improvements, storm water control/ flood abatement, public safety equipment and fire stations, swimming pools, animal shelter, clean air buses, trade center expansion, Animal Control Center, Lake Oliver Marina and industrial park development. Most of these projects are either completed or in the final stages of construction. Other SPLOST projects that are in the beginning stages of construction include a Citizen Service Center, Liberty District Redevelopment, walking trails and the Oxbow Meadows development. Sales tax collections were completed in September 2008.

A focus on revitalization of economically depressed areas in the City has proven successful through collaboration among City officials, residents, non-profit and for-profit organizations and businesses to clean up neighborhoods and provide education programs that allow neighborhoods to continue their revitalization efforts independently.

Looking to the Future

The Finance Department updated a financial plan showing revenue and expenditure histories, which was used extensively in the FY2010 and FY2011 budget processes. Looking to the future, the Consolidated Government is in the process of determining funding sources and options to fund all aspects of BRAC to include transportation projects, storm water and drainage requirements.

The Consolidated Government acquired the services of an actuary to assist with the implementation of GASB 45 and determine the OPEB liability. The Consolidated Government initiated a fully insured Medicare Advantage Plan in FY08 which is significantly reducing the OPEB liability. The Consolidated Government is currently looking at the various options of funding the liability. In addition, the Consolidated Government is working to have a fully funded Pension plan over the next 10 to 12 years.

In addition to these fiscal objectives, Columbus has established as an administrative goal the maintenance of unreserved General Fund balances equal to three months' average expenditures. Fund balances in excess of the target should be used only for nonrecurring expenditures such as capital projects. The actual unreserved General Fund balance at June 30, 2010 increased by \$7,523,723. The majority of the increase in fund balance is attributable to the collection of the additional 1% Local Option Sales Tax on retail sales.

The FY11 Annual Budget totals \$280,084,085, including \$56,340,063 from the new LOST tax approved on July 15, 2008, and anticipates using \$6,297,204 in fund balance. This is an increase of 4.2% over the Amended FY10 budget of \$225,367,942 and a 19.22% increase over the Adopted FY10 budget of \$234,922,446. Outside of the \$56 million increase from the new LOST, this represents an increase of 4.59% over the adopted FY10 budget and a decrease of 5% from the FY10 Amended budget. The major increases in the FY11 operating budget are due to increased operating costs in addition to the hiring of 12 additional employees. Of the \$4,585,791 in fund balance to be used, \$498,715 will come from the General Fund to be used for the approved commitment to the Baker Village Revitalization Project, \$100,000 for renovations to the Welcome Center, \$100,000 for workout equipment for the Police Department, \$1,250,335 for subsidies to Bull Creek Golf Course, Oxbow Creek Golf Course, and Emergency 911 funds, \$2,018,556 for current year operations, \$500,000 for the Stormwater (Sewer) Fund, and the remaining \$118,185 will come from the Parking Management Fund.

Financial Information

Internal Controls

The Consolidated Government's system of internal accounting control is designed to provide reasonable, but not absolute, assurance regarding:

1. the safe-guarding of assets against loss from unauthorized use or disposition; and
2. the reliability of financial records for preparing financial statements and maintaining accountability for assets and obligations.

The concept of reasonable assurance recognizes that:

1. the cost of a control should not exceed the benefits likely to be derived; and
2. the evaluation of costs and benefits requires estimates and judgments by management.

We believe that the Government's internal accounting controls adequately safeguard assets and provide reasonable assurance that financial transactions are properly recorded.

In accordance with Georgia law, budget control is maintained at the department level within the individual fund. Purchase orders are pre-audited as to budget availability. A computerized purchasing system establishes an encumbrance against the budget at the time the purchase order is issued. The purchase order is then released to the vendor. Open encumbrances are reported as reservations of fund balance at year-end. Unencumbered appropriations supported by general operating revenues lapse at year-end. Appropriations of grant-supported operations and capital projects are carried forward to the succeeding fiscal year.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Consolidated Government for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This was the twentieth consecutive year the Consolidated Government received this award.

The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Consolidated Government was awarded the Distinguished Budget Presentation Award for the fiscal year beginning July 1, 2009. This was the eighteenth consecutive year the Consolidated Government received this award. The Distinguished Budget Presentation Award is the highest form of recognition in governmental budgeting. In order to receive the award, a government must publish a budget document that meets program criteria as a policy document, financial plan, operations guide, and as a communications device.

Both the Certificate of Achievement and the Distinguished Budget Award are valid for a period of one year only. We believe our current comprehensive annual financial report and our 2011 fiscal year budget document continue to conform to the requirements for each award.

The presentation of the financial statements and receipt of an unqualified auditor's opinion is the result of commitment and dedication of many Consolidated Government employees. Special recognition goes to Jody Davis, Accounting Manager, for her expertise and tireless commitment in completing the financial statements. Through Ms. Davis's leadership and collaboration, the team that works on the audit exemplifies "Quality People Providing Quality Service".

I would also like to express appreciation to Albright Fortenberry & Ninas LLP, our external auditors, for their contribution by way of technical guidance and for the firm's dedication to the highest professional standards of governmental accounting.

Finally, I want to recognize the leadership of the Mayor, Members of Council, and the City Manager. Their guidance of the Consolidated Government's fiscal affairs continues to serve this community well.

Respectfully submitted,

Pamela J. Hodge
Finance Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Consolidated Government of Columbus, Georgia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

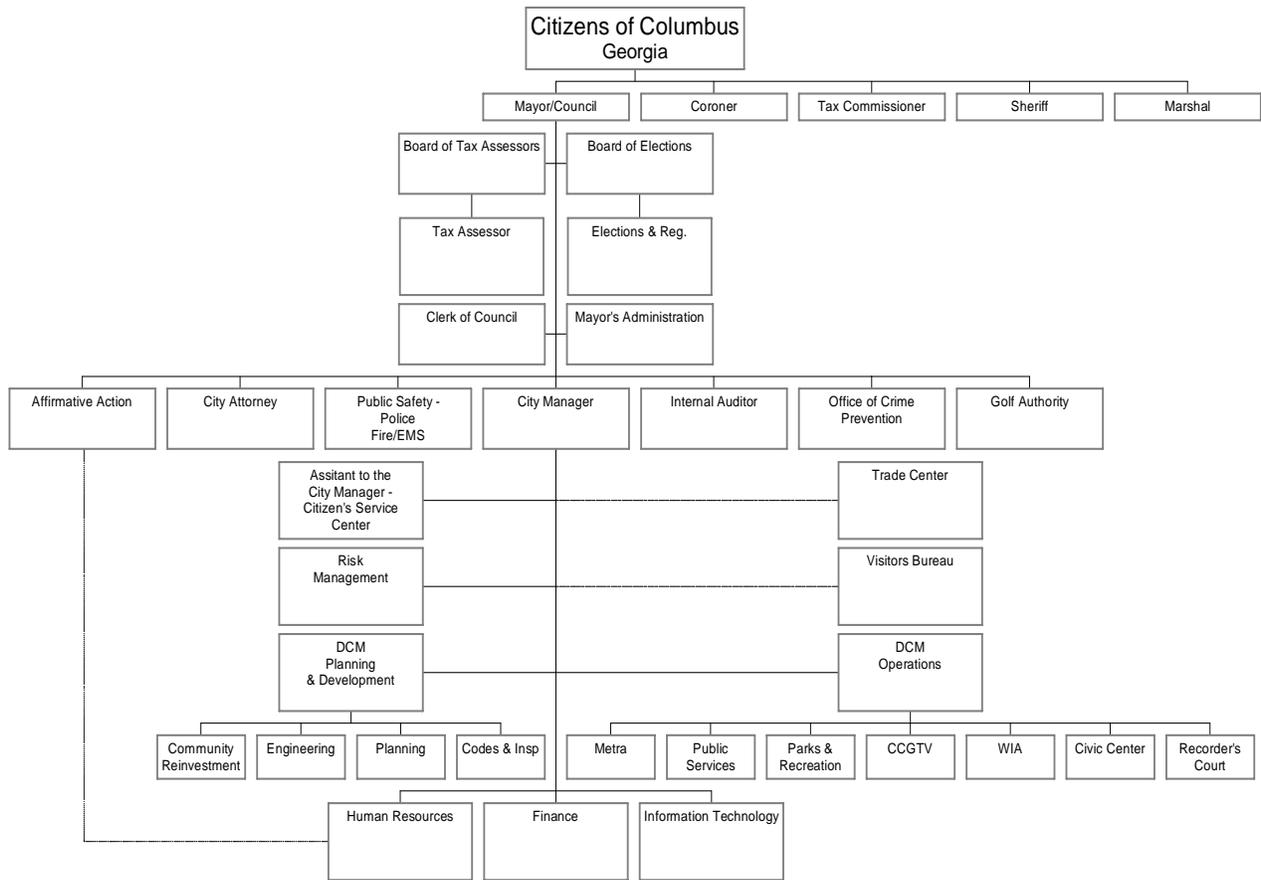

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Council
Consolidated Government of Columbus, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Consolidated Government of Columbus, Georgia, as of and for the year ended June 30, 2010, which collectively comprise the Government's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Consolidated Government of Columbus' management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Airport Commission of Columbus, Columbus Water Works, the Hospital Authority of Columbus, and the Columbus Convention and Visitors Bureau which represent 97 percent and 82 percent, respectively, of the assets and revenues of the discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Airport Commission of Columbus, Columbus Water Works, the Hospital Authority of Columbus, and the Columbus Convention and Visitors Bureau is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Consolidated Government of Columbus, Georgia, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund and Medical Center Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note N to the financial statements, the Consolidated Government adopted the provisions of GASB Statement No. 51, Accounting and Financial Reporting for Intangible Assets in 2010.

In accordance with Government Auditing Standards, we have also issued a report dated December 15, 2010 on our consideration of the Consolidated Government's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Schedule of Funding Progress on pages 3 through 15 and pages 81, 82, and 83 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Consolidated Government of Columbus' basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedules listed in the table of contents and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules listed in the table of contents has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section as listed in the table of contents has not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and accordingly, we express no opinion on them.

Albright, Fortenberry & Ninas, LLP

Columbus, Georgia
December 15, 2010

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Columbus Consolidated Government's Comprehensive Annual Financial Report presents our discussion and analysis of the Consolidated Government's financial performance during the fiscal year ending June 30, 2010. Please read it in conjunction with the transmittal letter at the front of this report and the Consolidated Government's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the Consolidated Government exceeded its liabilities at the close of the most recent fiscal year by \$604.2 million. Of this amount, \$55.1 million may be used to meet the Consolidated Government's ongoing obligations to citizens and creditors.
- The Consolidated Government's total net assets decreased by \$7.7 million, primarily due to increases in the net other postemployment benefits obligation and increases in other long term obligations.
- As of the close of the current fiscal year, the Consolidated Government's governmental funds reported combined ending fund balances of \$273.1 million, an increase of \$85.2 million in comparison to the prior year. This increase is primarily due to the issuance of bonds for various capital projects during the current year. Approximately 22% of the combined fund balances, \$60.2 million is considered unreserved and is available for spending at the Consolidated Government's discretion.
- The Consolidated Government's outstanding debt increased by \$89 million during the current fiscal year. This increase is the result of three new debt issuances during the current year to fund various capital projects which include: Fire/EMS Station, road and street resurfacing, stormwater enhancements, City Service Center and Parking Garage, Natatorium Swimming Facility, Ice Rink and a Recycling Center.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts—*management's discussion and analysis* (this section), the *basic financial statements*, *required supplementary information*, and an optional section that presents *combining statements* for nonmajor governmental funds and internal service funds. The basic financial statements include two kinds of statements that present different views of the Consolidated Government:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the Consolidated Government's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the Consolidated Government's operations in *more detail* than the government-wide statements.

The *Governmental Funds* statements tell how *general government* services such as public safety were financed in the *short term* as well as what remains for future spending. The Columbus Consolidated Government has five Governmental Fund types: the General, Special Revenue, Debt Service, Capital Projects and Permanent Funds.

Proprietary fund statements offer *short-* and *long-term* financial information about the activities the government operates *in a similar manner as businesses*, and include the Transportation, Parking Management, Civic Center, and Integrated Waste Management funds.

Fiduciary fund statements provide information about the financial relationships--like the retirement plan for the Consolidated Government's employees—in which the Consolidated Government acts solely as a *trustee*

or *agent* for the benefit of others, to whom the resources in question belong. The Consolidated Government Fiduciary funds consist of eight Agency Funds and one Pension Trust Fund and The Retiree Health Care Fund.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. In addition to these required elements, we have included a section with combining statements that provide details about our nonmajor governmental funds and internal service funds, each of which are added together and presented in single columns in the basic financial statements.

Figure A-1 summarizes the major features of the Consolidated Government’s financial statements, including the portion of the Consolidated Government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

Figure A-1

Major Features of Columbus Consolidated Government’s Government-wide and Fund Financial Statements

	Fund Statements			
Scope	Entire City government (except fiduciary funds) and the City’s component units	The activities of the City that are not proprietary or fiduciary, such as police, fire, and parks and recreation	Activities the City operates similar to private businesses: Integrated Waste, METRA, parking, and the Civic Center	Where the City is the trustee or agent for someone else’s resources, such as the retirement plan for City employees
Required financial Statements	Statement of Net Assets; Statement of Activities	Balance Sheet; Statement of Revenues, Expenditures, and Changes in Fund Balances	Statement of Net Assets; Statement of Revenues, Expenses, and Changes in Net Assets; Statement of Cash Flows	Statement of Fiduciary Net Assets; Statement of Changes in Fiduciary Net Assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City’s funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the Consolidated Government as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Consolidated Government's net assets and how they have changed. Net assets—the difference between the Consolidated Government's assets and liabilities—is one way to measure the Consolidated Government's financial health, or *position*.

- Over time, increases or decreases in the Columbus Consolidated Government's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Columbus Consolidated Government, the reader should consider additional nonfinancial factors such as changes in the Columbus Consolidated Government's property tax base.
- *Governmental activities*—Most of the Columbus Consolidated Government's basic services are included here, such as the police, fire, public works, parks and recreation departments, and general administration. Property taxes, sales and use taxes, and state and federal grants finance most of these activities.
- *Business-type activities*—The Columbus Consolidated Government charges fees to customers to help it cover the costs of certain services it provides. The Columbus Consolidated Government's garbage pickup, transportation, Civic Center and parking facilities are included here.
- *Component units*—Component Units are legally separate entities that meet any one of the following criteria: (1) The primary government appoints the voting majority of the board of the potential component unit, and is able to impose its will on the component unit and/or is in a relationship of financial benefit or burden with the potential component unit, (2) The potential component unit is fiscally dependent upon the primary government, or (3) The financial statements would be misleading if data from the potential component unit were not included. The Columbus Consolidated Government includes these component units in its report—the Columbus Iron Works Convention and Trade Center Authority, Columbus Golf Authority, Columbus Convention and Visitors Bureau, Columbus Water Works, Columbus Airport Commission, the Hospital Authority of Columbus, and the Columbus Department of Public Health. Separate financial statements are issued for the Columbus Water Works, Columbus Airport Commission, Hospital Authority of Columbus, Columbus Department of Public Health and the Columbus Convention and Visitors Bureau.

Fund Financial Statements

The fund financial statements provide more detailed information about the Columbus Consolidated Government's most significant *funds*—not the City as a whole. The “fund” level is where the basic unit of financial organization and operation within the Consolidated Government exists. Funds are accounting tools that are used to keep track of specific sources of funding and spending for particular purposes. They are the basic budgetary and accounting entities.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The Columbus Consolidated Government has three kinds of funds:

- **Governmental funds**—most of the Consolidated Government’s basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that help determine whether there are more or fewer financial resources that can be spent in the near future to finance the Consolidated Government’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them. The measurement focus of governmental funds is upon determination of financial position and changes in financial position (sources, uses, and balance of financial resources) rather than upon net income determination. These funds are maintained on a modified accrual basis of accounting (explained further in the notes to the financial statements under “Summary of Significant Accounting Policies”). The basic financial statements for governmental funds are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balance. The Columbus Consolidated Government utilizes five types of governmental funds: the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds and Permanent Funds.
- **Proprietary funds**—Services for which the Consolidated Government charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long and short-term financial information. Two types of proprietary funds exist: enterprise funds and internal service funds. The Consolidated Government’s *enterprise funds* are the same as its business-type activities yet provide more detail and additional information, such as cash flows. *Internal service funds* are used to report activities that provide supplies and services for the Consolidated Government’s other programs and activities. The measurement focus of proprietary funds is upon determination of net income, financial position and change in financial position. These funds are maintained on the accrual basis of accounting. The Balance Sheet, Statement of Revenues, Expenses and Changes in Net Assets, and Statement of Cash Flows are all required statements.
- **Fiduciary funds**—The Columbus Consolidated Government is the trustee, or *fiduciary*, for its employees’ pension plans. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The Consolidated Government is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Columbus Consolidated Government’s fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the Columbus Consolidated Government’s government-wide financial statements because the Consolidated Government cannot use these assets to finance its operations. The Pension Trust Fund and the Retiree Healthcare Funds are maintained on the accrual basis of accounting, with measurement focus upon determination of financial position. The Pension Trust Fund and the Retiree Health Care Fund financial statements include a Statement of Plan Net Assets and a Statement of Changes in Plan Net Assets as required by GASB Statement No. 25.

Since Agency Funds are custodial in nature, the only required financial statements are the Balance Sheet and Statement of Changes in Assets and Liabilities. The measurement focus of Agency Funds is upon determination of financial position. Agency Funds are maintained on the accrual basis of accounting.

**FINANCIAL ANALYSIS OF THE COLUMBUS CONSOLIDATED
GOVERNMENT AS A WHOLE**

Net assets. The Columbus Consolidated Government's *combined* net assets decreased from \$613.9 million at June 30, 2009 to \$603.5 million at June 30, 2010. (See table A-1.) Looking at the net assets and net expenses of governmental and business-type activities separately, however, two very different stories emerge.

Table A-1

Columbus Consolidated Government's Net Assets

(In millions of dollars)

	Governmental		Business-type		Total		Total
	Activities		Activities				Percentage
	2009	2010	2009	2010	2009	2010	Change
							2009-2010
Current and other assets	\$210.3	\$296.6	\$15.5	\$15.9	\$225.8	\$312.5	38.4%
Capital Assets	448.5	452.4	42.7	40.9	491.2	493.3	0.4%
Total Assets	658.8	749.0	58.2	56.8	717.0	805.8	12.4%
Long-term liabilities	70.4	167.0	7.7	7.7	78.1	174.7	123.7%
Other liabilities	24.0	26.0	0.9	0.9	24.9	26.9	8.0%
Total Liabilities	94.4	193.0	8.6	8.6	103.0	201.6	95.7%
Net assets							
Invested in capital assets, net of related debt	400.0	404.2	42.7	40.9	442.7	445.1	0.5%
Restricted	127.4	93.6	8.1	9.7	135.5	103.3	-23.8%
Unrestricted	37.0	58.2	(1.3)	(3.1)	35.7	55.1	54.3%
Total Net Assets	\$564.4	\$556.0	\$49.5	\$47.5	\$613.9	\$603.5	-1.7%

Net assets of the Consolidated Government's governmental activities decreased to \$556.0 million. However, much of those net assets either are restricted as to the purposes for which they can be used, or are invested in capital assets (buildings, roads, and such). Consequently, *unrestricted* net assets showed a \$58.2 million surplus at the end of this year. This surplus does not mean that the Consolidated Government has resources available beyond its long term commitments. Rather, it is the result of having currently available resources that are greater than *long-term* commitments.

In addition, the surplus in unrestricted governmental net assets continues to be positively affected by the increase in the Local Option Sales Tax on retail sales increased from 1 percent to 2 percent on January 1, 2009.

Although the net assets of our business-type activities decreased by .04 percent to \$47.5 million, these resources cannot be used to add to the net asset surplus in governmental activities. The Consolidated Government generally can only use these net assets to finance the continuing operations of the business-type activities.

Changes in net assets. The Columbus Consolidated Government's total revenues increased by 4.3 percent to \$261.2 million. (See Table A-2.) Approximately 34.8 percent of the Consolidated Government's revenue comes from property taxes, with 73.5 percent of all revenue coming from some type of tax.

Another 16.3 percent comes from fees charged for services, and the balance is from operating and capital grants and contributions and investment earnings.

The total cost of all programs and services was increased by 7.9 percent. The City's expenses cover a range of services, with about 41.8 percent of the total related to public safety. (See Figure A-2.)

Table A-2 and the narrative that follows consider the operations of governmental and business-type activities separately.

Governmental Activities

Revenues for the Columbus Consolidated Government's governmental activities increased 0.5 percent to \$240.0 million, while expenses increased 0.8 percent to \$246.3 million. Revenues increased in the areas of property taxes, sales taxes, capital grants and operating grants. Capital grants increased due to the receipt of several grant awards from the American Recovery and Reinvestment Act (ARRA).

Expenses increased from the prior year due to the increase in the sales tax on retail sales which has allowed increased expenditures for Public Safety and infrastructure. As this is the Columbus Consolidated Government's eighth year of reporting under the requirements of Governmental Accounting Standards Board Statement No. 34, the effect of the changes in reporting methods from one year to the next has been eliminated.

Property taxes have decreased modestly in FY10 in addition to the growth of the digest. The government is continuing to pursue other sources of revenue to mitigate the effect of increasing costs of necessary expenditure items such as healthcare and retirement.

Table A-3 presents the cost of each of the Columbus Consolidated Government's five largest programs, as well as each program's *net cost* (total cost less fees generated by activities and intergovernmental aid). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

- The cost of all *governmental* activities this year was \$246.3 million.
- However, the amount that taxpayers paid for these activities through city taxes (property taxes and sales taxes) was only \$154.9 million. Some of the cost was paid by:
 - Those who benefited directly from the programs (\$27.4 million)
 - Other governments and organizations that subsidized certain programs with grants and contributions (\$10.6 million).
- The City paid for the \$154.9 million "public benefit" portion with \$188.6 million in taxes along with other revenues such as investment earnings of \$6.2 million.

Table A-3

Net Cost of Columbus Consolidated Government's Governmental Activities

(In millions of dollars)

Other	11.7	13.3	13.7%	7.5	4.8	-36.0%
Total	\$228.5	\$246.4	7.8%	\$185.4	\$201.2	8.5%

Business-type Activities

The cost of all Proprietary (Business Type) activities this year was \$24.7 million. As shown in the Statement of Activities and Changes in Net Assets, the amounts paid by the users of the systems was \$15.4 million, operating grants and contributions were \$0.2 million and capital grants and contributions were \$1.8 million.

Total revenues available during the year to finance Proprietary Fund (Business Type) Activities were \$21.2 million consisting of program revenues of \$17.4 million and general revenues of \$3.4 million. Total Proprietary Fund (Business Type) expenses during the year were \$24.7 million; thus, Net Assets were decreased by \$2.0 million to \$47.5 million.

FINANCIAL ANALYSIS OF THE CONSOLIDATED GOVERNMENT'S FUNDS

As noted earlier, the Consolidated Government uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of the Consolidated Government's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Consolidated Government's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

The Consolidated Government's governmental funds reported combined ending fund balances of \$273.1 million as of the end of the current fiscal year, which was \$85.2 million more than last year's balance. Approximately .22% of this total amount \$60.2 constitutes *unreserved, undesignated fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved or designated* to indicate that it is not available for new spending because it has already been committed 1) to liquidate current contract and purchase orders of the prior period \$13.9, 2) to pay debt service \$3.4, 3) for a variety of other restricted purposes \$195.6.

The General Fund is the chief operating fund of the Consolidated Government. At the end of the current fiscal year, unreserved, undesignated fund balance of the general fund was \$45,846,780, while total fund balance reached \$72,656,800. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved, undesignated fund balance represents 30.0 percent of total general fund expenditures, while total fund balance represents 47.6 percent.

The fund balance of the Consolidated Government's general fund increased by \$17.3 million during the current fiscal year. The key factor in this increase was the approval of an additional 1% Other Local Option Sales Tax by the voters of Muscogee County which became effective January 1, 2009. The additional 1%, Other Local Option Sales Tax, is used for Public Safety and Infrastructure expenditures. The Council of the Consolidated Government decided to reserve the unspent portions of the Other Local Option Sales Tax for the rollback requirement in fiscal year 2011.

The Medical Center Fund has a total fund balance of \$(5.2) million which is a result of a contractual obligation to pay the Medical Center 3 mills of taxes on an annual basis for indigent care. This deficit has been growing over the course of the contract due to a contractual commitment to remit 3 mills of tax without regard to collection.

The 1999 Sales Tax Projects Fund has a total fund balance of \$62.7 million, a decrease of \$12.3 million from the previous year. This decrease is attributable to the completion of the Special Local Option Sales Tax collections and payment of on-going projects.

The Columbus Building Authority Taxable Build America Bonds, 2010B has a total fund balance of \$71.2 million which is attributable to proceeds of the Series 2010B bonds in the current year.

Proprietary funds. The Consolidated Government's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Integrated Waste Management Fund at the end of the year amounted to \$(1.8) million a decrease of \$1.1 million from the previous year. Unrestricted net assets for the Civic Center Fund amounted to \$(0.8) million, a decrease of \$0.3 million from the previous year. The increase in the deficit unrestricted net assets in the Civic Center fund is attributable to an operating loss for the year. Other factors concerning the finances of these two funds have already been addressed in the discussion of the Consolidated Government's business-type activities.

General Fund Budgetary Highlights

Comparing the FY2010 original budget (or adopted) General Fund amount of \$145.8 million to the final budget amount of \$146.5 million shows a net increase of \$.7 million. This figure includes \$499,392 of purchase orders committed prior to June 30 and \$203,707 of carryovers of ongoing projects and activities from the prior year.

Differences between the original budget and the final amended budget were mainly the result of ongoing projects or activities continued from the previous year in the form of carryover adjustments, purchase orders committed prior to June 30 and adjustments made at year-end. Increases in appropriations are summarized as follows:

General Government -- Adjustments within the function are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

Public Safety -- Adjustments within the function are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

Public Works -- Adjustments within this functional area are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

Culture and Recreation -- Adjustments within this functional area are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

Housing and Urban Development -- Adjustments in this functional area are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

Miscellaneous -- Adjustments within this area are consistent with carryovers for ongoing projects and purchase orders committed prior to June 30.

The net increase in the General Fund budget was funded by fund balance.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2010, the Columbus Consolidated Government had invested \$493.3 million in a broad range of capital assets, including police and fire equipment, buildings, parks facilities and roads, and bridges. (See Table A-4.) This amount represents a net increase (including additions and deletions) of \$2.1 million, or 1.0 percent, over last year.

Table A-4
Columbus Consolidated Government's Capital Assets
(In millions of dollars)

	Governmental		Business-type		Total		Total
	Activities		Activities				Percentage
	2009	2010	2009	2010	2009	2010	Change

Computer Software	0.5	0.5	-	-	0.5	0.5	0.0%
Construction in Progress	65.1	79.7	-	-	65.1	79.7	22.4%
Accumulated Depreciation	(299.6)	(321.4)	(28.2)	(29.1)	(327.8)	(350.5)	6.9%
Total	\$ 449.0	\$ 452.4	\$ 42.7	\$ 40.9	\$ 491.7	\$ 493.3	0.3%

This year's major capital asset additions and deletions included:

- Increases in land are mainly the result of right of way purchases in the amount of \$1.9 million, donations in the amount of \$1.8 million and decreases in the amount of \$0.9 million resulting from the transfer of land for development of City Service Center, Natatorium and Parking Garage.
- Purchase of public safety vehicles and equipment in the amount of \$5.0 million and heavy duty equipment in the amount of \$0.7 million.
- Construction in Progress increased due to the ongoing construction of various sales tax projects.
- Easements and Computer Software are recorded as intangible assets as required by Government Accounting Standards Board Statement No. 51.

More detailed information about the Columbus Consolidated Government's capital assets is presented in Note E to the financial statements.

Long-term Debt

At year-end, the City had \$147.2 million in bonds and notes outstanding—an increase of \$89.0 million over last year—as shown in Table A-5. This increase is due to three new debt issuances during the current year to fund various capital projects which include: Fire/EMS Station, road and street resurfacing, stormwater enhancements, City Service Center and Parking Garage, Natatorium Swimming Facility, Ice Rink and a Recycling Center. More detailed information about the Columbus Consolidated Government's long-term liabilities is presented in Note K to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

Key assumptions for revenue forecasts for fiscal year 2011 are summarized as follows:

1. Property tax revenues will increase by 1.0% based on the estimated growth of assessed valuation and general growth. Additionally, it is assumed there will be 96% collections for Ad Valorem Taxes.
2. Population growth of Columbus increased by 2.10% from 2000 to 190,414 (2009 Census estimate). Georgia Department of Labor projects a decrease in the population for our area. However, with the announcement of BRAC to move and realign more activities and services to Ft. Benning, local projections have the population stabilized with probable increases this fiscal year.
3. Employment totals based on September 2010 reached a total of 115,380 with a civilian labor force of 126,979 in Columbus. Based on recent announcements, this will grow as new jobs are created. It is anticipated that growth in the next few years will outweigh downsizing. This is based on the Georgia Department of Labor’s monthly report.
4. Unemployment rates based on September 2010 stood at 9.1% for the city compared to 9.6% for the national rate. This will remain high for the next fiscal year. This is based on the Bureau of Labor Statistics data.

This contributed to the following projections for the Next Year’s budget:

1. Charges for Services are expected to increase by 0.44% from the final FY2010 budget.
2. Sales and Use Taxes are projected to increase by 2.37% from the final FY2010 budget.
3. Business licenses, fees and permits are estimated to increase by 0.33% from the final FY2010 budget.
4. Fines, forfeitures, and court fees are estimated to increase by 24.95% from the final FY2010 budget.
5. Millage rates were decreased due to the rollback requirement of the Local Option Sales Tax that became effective January 1, 2009.

**CONTACTING THE COLUMBUS CONSOLIDATED GOVERNMENT'S
FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Columbus Consolidated Government's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Columbus Consolidated Government Finance Department, P.O. Box 1340, Columbus, Georgia 31902-1340 or visit our website at www.columbusga.org.

CONSOLIDATED GOVERNMENT OF COLUMBUS, GEORGIA
Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Assets
June 30, 2010

TOTAL FUND BALANCES - TOTAL GOVERNMENTAL FUNDS \$ 273,146,598

Amounts reported for Governmental Activities in the Statement of Net Assets are different because:

The net pension obligation resulting from contributions in excess of the annual required contribution are not financial resources and therefore are not reported in the Governmental Funds Balance Sheet. 2,657,082

The net other postemployment benefits obligation resulting from contributions below the annual required contribution are not financial resources and therefore are not reported in the Governmental Funds Balance Sheet. (9,447,806)

Unamortized bond costs are not current financial resources and therefore are not reported in the Governmental Funds Balance Sheet. 1,914,484

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the Governmental Funds Balance Sheet. 452,356,023

Deferred revenues for delinquent property taxes deferred in the governmental funds because they will not be received within sixty days of the Consolidated Government's year end. 2,634,055

Allowance for doubtful accounts for property taxes receivable are not current financial resources and therefore not reported in the Governmental Funds Balance Sheet. (1,519,853)

Internal Service Funds are used by management to charge the costs of certain activities, such as insurance and risk management, to individual funds. The assets and liabilities of the Internal Service Funds are included in governmental activities in the Government-Wide Statement of Net Assets. 1,914,988

Long-term liabilities are not due and payable in the current period and therefore they are not reported in the Governmental Funds Balance Sheet.

This amount represents bonds and notes payable, capital leases and unamortized premiums	(148,237,063)
This amount represents compensated absences	(7,731,627)
This amount represents claims payable	(2,760,000)
This amount represents workers compensation claims payable	(4,086,872)
This amount represents landfill remediation	(4,874,317)
	(14,870,679)

NET ASSETS OF GOVERNMENTAL ACTIVITIES \$ 555,965,692

The notes to the financial statements are an integral part of this statement.

CONSOLIDATED GOVERNMENT OF COLUMBUS, GEORGIA
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the
Government-Wide Statement of Activities and Changes in Net Assets
For Fiscal Year Ended June 30, 2010

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS \$ 85,244,960

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental Funds report capital outlay as expenditures. However, in the Government-Wide Statement of Activities and Changes in Net Assets, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period. 26,719,324

Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities and Changes in Net Assets, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in Governmental Funds. (23,268,591)

Because some property taxes will not be collected for several months after the Consolidated Government's fiscal year ends, they are not considered "available" revenues in the governmental funds. 150,504

An allowance for doubtful accounts for property taxes is reported in the Government-Wide Statement of Activities and Changes in Net Assets, but does not require the use of current financial resources. (365,102)

Long-term compensated absences, claims payable and workers compensation payables are reported in the Government-Wide Statement of Activities and Changes in Net Assets, but they do not require the use of current financial resources. Therefore, long-term compensated absences \$275,559, claims payable \$1,020,000, Wilson Camp landfill closure \$57,798 and Workers Compensation Claims \$216,999 are not reported as expenditures in Governmental Funds. (1,570,356)

The amortization of pension assets is reported in the Government-Wide Statement of Activities and Changes in Net Assets, but it does not require the use of current financial resources.

This amount represents the net pension obligation 24,129

This amount represents the net postemployment benefits obligation (5,815,099)

Bond proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Government-Wide Statement of Net Assets. Repayment of bond principal is an expenditure in Governmental Funds, but the repayment reduces long-term liabilities in the Government-Wide Statement of Net Assets.

This amount represents long-term debt proceeds, repayments and issuance costs. (88,874,005)

Internal Service Funds are used by management to charge the costs of certain activities, such as insurance and risk management activities, to individual funds. The net revenue of the Internal Service Funds is reported with Governmental Activities. 24,291

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES \$ (7,729,945)

The notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Consolidated Government of Columbus, Georgia have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

I. Reporting Entity

Columbus is a political subdivision of the State of Georgia created by virtue of a Constitutional Amendment authorizing the consolidation of the County of Muscogee with the City of Columbus. Commencing January 1, 1971, Columbus became a consolidated city-county government. The financial reporting entity has been determined by management in accordance with generally accepted accounting principles to be the primary government, organizations for which the primary government is financially accountable and organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. In evaluating how to define the government for financial reporting purposes, management has considered all component units. The criteria used to determine financial accountability are the ability of the primary government to appoint a voting majority of the organization's governing body, and effectively impose its will on the organization. Also, if there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government, financial accountability would exist. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the government's reporting entity.

Included with the reporting entity as Blended Component Units:

Consolidated Government of Columbus, Georgia Public Employees Retirement System The Consolidated Government's employees participate in one of two Public Employee Retirement Systems (PERS). PERS functions for the benefit of these employees and is governed by a Board of Directors appointed by the Council of the Consolidated Government. The Consolidated Government of Columbus Georgia Public Employees Retirement System is presented as a pension trust fund.

Columbus Building Authority - The Authority was created by Article VII, Sec. VI, Pa. 1 of the Constitution of Ga. of 1945, as amended and ratified at the general election of November 5, 1968 (Ga. L. 1966, Pg. 946). The Authority provides a means to issue revenue certificates to acquire, construct, equip, maintain, and operate self-liquidating projects embracing buildings and facilities for use by the Consolidated Government of Columbus, Georgia. The Columbus Building Authority is presented as a governmental fund type.

The Consolidated Government has directly or indirectly guaranteed the Authority's debts.

The Authority is not exclusively responsible for its fiscal affairs.

The Authority's board is appointed by the Mayor and Council of the Consolidated Government.

The Consolidated Government has an equity interest in the Authority upon dissolution.

Included with the reporting entity as Discretely Presented Component Units:

Columbus Golf Authority - The Authority was created by Ordinance No. 82-29, adopted May 4, 1982 pursuant to Secs. 3-104(3) and 4-102(1) of the Columbus Charter. The name of the Authority was changed from Bull Creek Golf Authority to Columbus Golf Authority by Ordinance No. 97-35. The Authority provides recreation opportunities to the general public and is responsible for the operation of Bull Creek Golf Course and Oxbow Meadows Golf Course. The Columbus Golf Authority is presented as proprietary component units: Bull Creek Golf Course and Oxbow Meadows Golf Course due to the independent operation of each golf course. The following factors suggest that the Authority should be included in the reporting entity:

The Consolidated Government has directly or indirectly guaranteed the Authority's debts.

The Authority is not exclusively responsible for its fiscal affairs.

The Authority's board is appointed by the Council of the Consolidated Government and may be removed at any time.

The Authority is a subordinate branch of the Consolidated Government.

Columbus Iron Works Convention and Trade Center Authority - The Authority was created by Ordinance No. 83-79, adopted September 27, 1983 (Col. Code Sec. 2-121). The Authority supervises and operates the Columbus Iron Works Convention and Trade Center as a subordinate branch of the Consolidated Government. The Columbus Iron Works Convention and Trade Center is presented as a proprietary component unit. The following factors suggest that the Authority should be included in the reporting entity:

The Consolidated Government has directly or indirectly guaranteed the Authority's debts.

The Consolidated Government is responsible for financing deficits and also is entitled to any excess of revenues over expenses generated by the Authority.

The Authority's board is appointed and serves at the pleasure of Council of the Consolidated Government.

The Authority is a subordinate branch of the Consolidated Government.

Columbus Convention and Visitors Bureau - The Bureau was established as a commission by Ordinance 80-51 adopted April 29, 1980 pursuant to the provisions of Act No. 1204, H.B. No. 1854. The Bureau was created to promote tourism, trade and conventions for the benefit of the community. The Columbus Convention and Visitors Bureau is presented as a proprietary component unit. The following factors suggest that the Bureau should be included in the reporting entity:

The Bureau's Commission members are appointed by the Mayor and Council of the Consolidated Government.

The Consolidated Government is responsible for any deficit and is entitled to the surplus revenue received or generated by the Bureau.

The annual budget must be presented to Council of the Consolidated Government for approval.

Hospital Authority of Columbus - The Authority was created by County Commission Resolution of November 14, 1967 pursuant to the Georgia Hospital Authorities Law, O.C.G.A., Section 31-7-72. The Authority was created to provide long-term health care for residents of Muscogee and surrounding counties. It operates the Muscogee Manor Nursing Home and Cobis Personal Care Home. The Hospital Authority of Columbus is presented as a proprietary component unit. The following factors suggest that the Authority should be included in the reporting entity:

The Council of the Consolidated Government may remove members for cause by six votes of the Council. Members are appointed by the Authority from nominations made by the Council of the Consolidated Government.

The Consolidated Government has contractually guaranteed the debt of the Authority, in exchange for which the Authority has agreed to provide care to indigent and elderly residents of the Consolidated Government.

Columbus Airport Commission - The Commission was created by Constitutional Amendment, Article 5, Section 4, Ga. Laws 1968, Pg. 1655 for the purpose of administering the operations of the Columbus Metropolitan Airport. The Columbus Airport Commission is presented as a proprietary component unit. The following factors suggest that the Commission should be included in the reporting entity:

The Council of the Consolidated Government appoints members upon nomination by the Airport Commission and may remove members for cause by six votes of the Council.

The Consolidated Government has contractually guaranteed to meet interest and principal payments on the 1988 Airport Improvement Revenue Bonds should the net revenues of the Commission be insufficient to service the debt.

Columbus Water Works - The Board of Water Commissioners was created by Act No. 54 of the General Assembly of Georgia, approved December 3, 1902 (Ga. L. 1902, Page 370-377). The Board was created to administer the operations of the Columbus water and waste water treatment systems. The Columbus Water Works is presented as a proprietary component unit. The following factors suggest that the Board should be included in the reporting entity:

The Council of the Consolidated Government appoints members of the Water Commission and may remove members for cause by six votes of the Council.

The Consolidated Government has contractually agreed to be responsible for certain long term debt of the Columbus Water Works.

Columbus Department of Public Health - The Board of Health was created on October 5, 1971 by virtue of an Act of the General Assembly of Georgia, approved March 27, 1941 (Ga.L. 1941, p.937) as amended. The Board was created to administer the operations of the Columbus Department of Public Health. This entity is presented as a governmental fund type component unit. The Georgia Department of Audits, Local Government Audit Section, has ruled that county boards of health should be considered component units of the county government for financial reporting purposes. The following factors support the ruling that the Columbus Department of Public Health be included in the reporting entity:

The Council of the Consolidated Government appoints members of the Board of Health; the Mayor and City Manager are also Board members by virtue of office.

The Consolidated Government provides funding annually in an amount sufficient to equal the required local match funds as designated by the Georgia Department of Human Resources.

Complete financial statements for each of the individual component units may be obtained at the entity's administrative offices.

Related Organization

The Georgia Department of Audits and Accounts has determined that Housing Authorities should be reported as related organizations. The Mayor of the Columbus Consolidated Government appoints the members of the Board of the Housing Authority of Columbus. The

Consolidated Government's accountability for this organization does not extend beyond making appointments.

Joint Venture

Under Georgia law, the Columbus Consolidated Government is a member of the Lower Chattahoochee Regional Development Center (LCRDC) and is required to pay dues thereto. The LCRDC is located in Columbus and currently serves a total of nineteen municipalities and eight counties. During the year ended June 30, 2010 the Columbus Consolidated Government paid \$186,984 in dues to the LCRDC. Membership in an RDC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organization structure of the RDC in Georgia. The RDC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that member governments are liable for any debts or obligations of an RDC. Separate financial statements may be obtained from:

Lower Chattahoochee Regional Development Center
1428 Second Avenue
Columbus, GA 31902

II. Government-wide and Fund Financial Statements

The Governmental Accounting Standards Board (GASB) has issued Statement No. 34. This Statement established new financial reporting requirements for state and local governments throughout the United States. Its implementation created new information and restructured much of the information that governments have presented in the past. The GASB's intent is to make annual reports more comprehensive and easier to understand.

GASB 34 took effect for entities the size of the Consolidated Government during the fiscal year ending June 30, 2002. One of the changes required by GASB 34 is the presentation of current and accumulated depreciation by activity. Another important change is the requirement to present original adopted budget as well as the final amended budget in the budgetary comparison statements.

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is accountable.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

III. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Consolidated Government's government wide financial statements include a Statement of Net Assets and a Statement of Activities and Changes in Net Assets. These statements present summaries of Governmental and Business-Type activities for the Consolidated Government. Fiduciary activities of the Consolidated Government are not included in these statements.

These statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary

fund financial statements. The fiduciary fund financial statements are reported using the *economic resources measurement focus* and are presented on the accrual basis of accounting. Accordingly, all the Consolidated Government's assets and liabilities, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in assets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the Consolidated Government are reported in three categories: 1) charges for services to customers who directly benefit from goods, services or privileges provided by a given function, 2) operating grants and contributions that are restricted to meeting the operational needs requirements of a particular function and 3) capital grants and contributions that are restricted to meeting the capital needs requirements of a particular function.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Assets have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated, however, those transactions between governmental and business-type activities have not been eliminated. Governmental activities, which are normally supported by taxes and intergovernmental revenues are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Under the terms of grant agreements, the Consolidated Government funds certain programs by a combination of specific cost reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Consolidated Government's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

In accordance with Statement of Accounting Standards No. 20, Accounting and Financial Reporting For Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting," the Consolidated Government has elected to apply Governmental Accounting Standards Board (GASB) pronouncements as well as the following pronouncements issued on or before November 30, 1989 unless those pronouncements are inconsistent with GASB pronouncements, FASB Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins (ARB).

Governmental Fund Financial Statements

Governmental Fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. Governmental Fund financial statements and Permanent funds are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Those revenues susceptible to accrual are property taxes, sales taxes, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year end on behalf of the government also are recognized as revenue. Fines are not susceptible to accrual because generally they are not measurable until received in cash. The Consolidated Government considers taxes as available in the period for which they were levied if they are collected within 60 days after year end. A ninety (90) day availability period is used for revenue recognition for all other governmental fund revenues.

The Consolidated Government reports the following major governmental funds:

General Fund – is the principal fund of the Consolidated Government and is used to account for all activities of the Consolidated Government not otherwise accounted for by a specified fund.

Medical Center Fund – to account for funding provided for indigent hospital care for the residents of Columbus.

1999 Sales Tax Project Fund – to account for projects supported by the 1999 Sales Tax Proceeds Account Fund including road projects and acquisition, construction and equipping of various capital projects.

Columbus Building Authority Capital Improvement Lease Revenue Bonds (Taxable–Build America Bonds–Direct Payment) Series 2010B – to account for proceeds of the 2010B taxable Build America Bonds for construction of Fire/EMS stations, City Service Center and Parking Garage, Natatorium Swimming facility, Recycling/Sustainability Center, road construction and stormwater enhancements .

The Consolidated Government reports the following major proprietary funds:

Integrated Waste Management Fund – to account for the costs of providing refuse collection and disposal services to the community.

Civic Center Fund – to account for the operation of the South Commons Civic Center.

Additionally the Consolidated Government reports the following fund types:

Special Revenue Funds are used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The Consolidated Government has the following non-major Special Revenue Funds based on the revenue source and program purpose:

Sewer Fund - To provide for the operation, maintenance and improvements to the Consolidated Government's storm sewer system.

Paving Fund - To provide for the maintenance and improvements to the Consolidated Government's roads and bridges.

Community Development Block Grant Fund - To account for grant monies received from the Department of Housing and Urban Development under the Community Development Block Grant Program.

Economic Development Program - To account for monies loaned under the Consolidated Government's revolving loan program.

Economic Development – Development Authority – To provide funding for economic development activities to include working with local and regional entities in attracting quality companies, working to broaden the Muscogee County tax base, job creation and retention.

Multi-Governmental Project Fund - To account for grant monies received from various federal and state agencies.

Hotel-Motel Tax Fund - To account for hotel-motel tax revenue designated for the funding of the Columbus Convention and Visitors Bureau, River Center for the Performing Arts, Columbus Sports Council, Columbus Trade and Convention Center and the Civic Center.

County Drug Abuse Treatment Fund - To account for additional penalties imposed by Georgia State Law 15-21-100, Article Six designated for drug abuse treatment and education programs relating to controlled substances and marijuana.

Job Training Partnership Program Fund - To account for grant monies received from the Department of Labor under the Job Training Partnership Act and Workforce Investment Act of 1998.

Urban Development Action Grant Fund - To account for loans and program income received from the Department of Housing and Urban Development under the Urban Development Action Grant Program.

Metro Drug Task Force Fund - To account for monies forfeited under the Controlled Substances Act designated for the joint law enforcement activities of the Columbus Police Department and the Muscogee County Sheriff's Department.

County Jail Fund/Penalty Assessment Act Fund - To account for monies collected under the Jail Construction and Staffing Act (Ga. L 1989 p. 1753) to provide for constructing, operating, and staffing jails, correctional institutions and detention facilities of the Consolidated Government.

Police Forfeiture Fund - To account for monies received from federal and state forfeitures designated for police department expenditures.

Sheriff's Forfeiture Fund - To account for monies received from federal and state forfeitures designated for sheriff department expenditures.

Emergency Telephone Fund - To account for telephone subscriber surcharge collections and the operations of the Emergency 911 system.

Home Program Fund - To account for grant monies received from the Department of Housing and Urban Development under the Home Investment Partnership Program.

Neighborhood Stabilization Program Fund – To account for grant monies received from the Department Of Housing and Urban Development under the Housing and Economic Recovery Act (HERA) of 2008.

Columbus Greenspace Trust Fund - To account for monies received from the Department of Natural Resources under the Georgia Greenspace Act.

The Family Connection Partnership Fund is used to account for revenues from the State of Georgia Department of Human Resources to provide funding to the Muscogee County Family Connection.

Debt Service Funds are utilized to account for the accumulation and disbursement of money needed to comply with the interest and principal redemption requirements of the general obligation bond issues. Provisions are made in the Consolidated Government's general property tax levy, special purpose local option sales tax levy, and in agreements with other governmental agencies for money sufficient to meet the general obligation debt. The Consolidated Government has two Debt Service Funds, both of which are major funds.

Debt Service Fund - to account for the accumulation and disbursement of funds for the interest and principal redemption requirements of the General Obligation bond issues, Columbus Building Authority lease contracts, Water Commissioners revolving loan contract, and the Lease-Purchase Program of the Georgia Municipal Association.

1999 Sales Tax Proceeds Fund – to account for the collection and disbursement of the renewal of the 1% Special Local Option Sales Tax (SPLOST) needed to comply with the interest and principal requirements of the general obligation sales tax bonds.

Capital Projects Funds are used to account for financial resources for the acquisition or construction of major capital facilities and improvements other than those financed by Proprietary Funds. These projects are financed through budget appropriations, revenue bonds and sales tax proceeds. The Consolidated Government has the following non-major Capital Projects Funds:

HUD - Section 108 - To account for proceeds of a loan program guaranteed under Section 108 of the Housing and Urban Development Act of 1974 to provide development within the Second Avenue Redevelopment area.

Columbus Building Authority Taxable Lease Revenue Bonds, Series 1999C - To account for proceeds of the 1999C taxable lease revenue bonds for Need for Land acquisition, infrastructure and

Enterprise Zone land acquisition.

Columbus Building Authority Taxable Lease Revenue Bonds, Series 2003B – To account for proceeds of the 2003B taxable lease revenue bonds for construction and equipping of two parking garages.

Columbus Building Authority Lease Revenue Bonds, Series 2003A – To account for proceeds of the 2003A lease revenue bonds for construction and equipping of two new fire stations, storm water enhancements, road and street resurfacing/reconstruction, 800 MhZ Tower, Parking Lot/Deck, Skate Park Super Center, and expansion of the Columbus Georgia Convention and Trade Center.

Columbus Building Authority Capital Improvement and Refunding Lease Revenue Bonds, Series 2010A – To account for proceeds of the 2010A refunding lease revenue bonds for construction of an Ice Rink and enhancements to the stormwater infrastructure.

Columbus Building Authority Capital Improvement Lease Revenue Bonds (Taxable –Recovery Zone Development Bonds-Direct Payment) Series 2010C – To account for proceeds of the 2010C taxable Recovery Zone Development bonds for construction/reconstruction and resurfacing of local roads, streets and bridges.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Consolidated Government's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The non-major proprietary funds utilized by the Consolidated Government are as follows:

Enterprise Funds account for activities that are usually self-sustaining, principally through user charges for services rendered. The Consolidated Government has two non-major Enterprise Funds.

Transportation System Fund - The Transportation System Fund was established for the control of the operating revenue and expense of the local public transit system. The transportation system is operated as a separate enterprise and the accounting records are maintained on the same basis as a commercial business.

Parking Management Fund - The Parking Management Fund was established for the purpose of operating the Parking Garage and managing public property.

Internal Service Funds account for the financing of goods and services provided by one department or agency to other departments or agencies of the government on a cost reimbursement basis. The Consolidated Government has two internal service funds.

The Employee Health Care and Life Insurance Fund is used to account for the self-funded employee health care program and payment of life insurance premiums.

The Risk Management Fund is used to account for vehicle accident and workers' compensation claim management and related costs.

Permanent Funds are used to report resources that are legally restricted to the extent only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. The Consolidated

Government utilizes one Permanent Fund:

The Cemetery Perpetual Care Fund is used to account for dedicated revenues and associated maintenance of the Linwood, Riverdale, and Porterdale cemeteries.

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement either a pension trust fund, private purpose trust fund or permanent fund is used. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent. The Consolidated Government utilizes the following fiduciary funds:

The Pension Trust Funds are used to account for activities related to the public employee retirement systems. The Consolidated Government maintains a Pension and Benefit Trust Fund, an irrevocable trust fund, which accounts for the assets and activities of the Consolidated Government's pension, major disability and death benefit.

The Retiree Healthcare Fund is used to account for the retiree health insurance program to include medical and dental insurance benefits to eligible retirees and their spouses.

Agency Funds are used to account for assets held by the Consolidated Government as an agent for individuals, private organizations, other governments, and the Consolidated Government departments.

The Consolidated Government maintains the following Agency Funds:

Clerk of Superior Court
Clerk of Municipal Court
Probate Court
Adult Probation
Sheriff
Tax Commissioner
Law Library
Magistrate Court

Component Units: All component units are accounted for on a flow of economic resources measurement focus basis and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Budgets

Annual appropriated budgets are adopted for all funds receiving ad valorem taxes, namely, General Fund, Transportation Fund, Sewer Fund, Paving Fund, Medical Center Fund, and the Debt Service Fund as required by the Charter of the Consolidated Government. Annual appropriated budgets are also adopted for the Emergency Telephone Fund, Hotel/Motel Tax Fund, County Drug Abuse Treatment Fund, Urban Development Action Grant, Economic Development – Development Authority Fund, Metro Drug Task Force Fund, Penalty Assessment Fund, Police Forfeiture Fund, Sheriff's Forfeiture Fund, Columbus Greenspace Fund, Family Connection Fund and the 1999 Sales Tax Proceeds Account Fund as required by State Law. Annual budgets are adopted for the Community Development Block Grant Fund, Job Training Partnership Program, Multi-Governmental Project Fund, Economic Development Program and Home Program Fund. Annual budgets are also adopted for the Consolidated Government's Capital Projects Funds – Columbus Building Authority's Taxable Lease Revenue Bonds - Series 1999C and 2003B; Columbus Building Authority's Lease Revenue Bonds, Series 2003A and 2010A; Columbus Building Authority's Taxable Build America Bonds – Series 2101B and Taxable Recovery Zone Economic Development Bonds – Series 2010C; and 1999 Sales Tax Projects Fund. An annual budget is also adopted for the Special Projects Fund that contains projects funded by the Consolidated Government's General, Sewer and Paving Funds contingent upon the Consolidated Government's ability to appropriate funds to the projects for the current fiscal year. The HUD Section 108 Fund was completed during a prior fiscal year with no plans for spending during the current year. All annual appropriations lapse at fiscal year end.

Budgets are adopted on a basis consistent with generally accepted accounting principles except that encumbrances are treated as budgeted

expenditures in the year of the incurrence of the commitment to purchase. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting--under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation--is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored through subsequent years' budget appropriations.

Cash and Investments

Cash and cash equivalents, as reported in the statement of cash flows, includes amounts in demand deposits, amounts with fiscal agents and investments with an original maturity of three months or less. Statutes authorize the Consolidated Government to invest in U. S. Government obligations, U.S. Government agency obligations, State of Georgia obligations, obligations of other counties, municipal corporations and political subdivisions of the State of Georgia which are rated "AA" or better by Moody's Investors Service, Inc., negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America or any national banking association, repurchase agreements when collateralized by U. S. Government or agency obligations, and pooled investment programs sponsored by the State of Georgia for the investment of local government funds. The Pension and Benefit Trust Fund is also authorized to invest in corporate bonds, domestic common stocks, equity real estate, and international common stocks directly or through pooled investment accounts.

Investments are stated at fair value based on published quoted market prices. The fair values of investments in external investment pools are the same as the value of the pool shares.

Inventories

The General and Transportation System Funds utilize a perpetual inventory system where materials and supplies are charged to inventory when acquired and charged to various departments when consumed, the consumption method.

Proprietary fund inventories are valued at the lower of cost (weighted average and specific identification methods) or market. Governmental fund inventories are valued at cost using the first-in, first-out (FIFO) method.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2010, are recorded as prepaid items based on the consumption method.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Consolidated Government's policy has set the capitalization threshold for reporting capital assets at \$5,000, \$50,000 for intangible assets and \$250,000 for infrastructure assets. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. Donations of roads by developers that exceeded the capitalization threshold for infrastructure assets during the current year are recorded as infrastructure. The Consolidated Government patched and resurfaced several roads during the current year that are considered general maintenance. The Consolidated Government reports only infrastructure acquired or constructed after June 30, 1980 in accordance with GASB Statement 34. The Consolidated Government reports intangible assets acquired after June 30, 1980 in accordance with GASB Statement 51.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Compensated Absences

It is the policy of the Consolidated Government to permit employees to accumulate earned but unused vacation and sick pay benefits.

There is no liability for unpaid accumulated sick leave since the Consolidated Government does not have a policy to pay any amounts when employees separate from service. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the issue is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity

Reserved fund balances represent those portions of fund equity legally segregated for a specific future use or otherwise not appropriate for expenditure. Designated fund balances represent tentative management plans for future use of financial resources that are subject to change.

Indirect Cost Allocations

The Consolidated Government utilizes a Cost Allocation Plan prepared in conformance with OMB Circular-A87, which governs the payment of overhead (or "indirect") costs from federal grants.

NOTE B - LEGAL COMPLIANCE-BUDGETS

The Consolidated Government follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) Prior to May 1, the Mayor submits to Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) Public notice of budget and tax proposals is provided in conformance with Georgia law.
- (3) Public hearings are conducted to obtain taxpayer comments.
- (4) Prior to July 1, the budget is formally adopted by Council.
- (5) All budget transfers must be approved by the Finance Director or Council depending on the type of expenditure:

Budget Transfer

Approval Required

a. Among any accounts within a department.

Finance Director

b. Changing the total appropriation of any department.

Council

Expenditures for operations and maintenance are classified as materials and supplies and contractual services within the financial statements.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual budget is the department.

Adopted budgets are combined into the Consolidated Government's accounting system as a management control device. Formal budgets are adopted for the General Fund, Debt Service Fund, Sewer Fund, Paving Fund, Medical Center Fund, Transportation Fund, Emergency Telephone Fund, Hotel/Motel Tax Fund, County Drug Abuse Treatment Fund, Urban Development Action Grant, Economic Development – Development Authority Fund, Metro Drug Task Force Fund, Penalty Assessment Fund, Police Forfeiture Fund, Sheriff's Forfeiture Fund, Columbus Greenspace Fund, Family Connection Fund, 1999 Sales Tax Proceeds Account Fund, Special Projects Fund, Columbus Building Authority Taxable Lease Revenue Bonds - Series 1999C and Series 2003B, Columbus Building Authority Lease Revenue Bonds, Series 2003A and 2010A; Columbus Building Authority's Taxable Build America Bonds – Series 2010B and Taxable Recovery Zone Economic Development Bonds – Series 2010C; and the 1999 Sales Tax Projects Fund. Annual budgets are adopted for the Community Development Block Grant, Job Training Partnership Program, Multi-Governmental Project Fund, Economic Development Program and the Home Program Fund. Budgets for the General, Debt Service, Special Revenue and Capital Projects Funds are adopted on the modified accrual basis except that encumbrances are treated as budgeted expenditures in the year of the incurrence of the commitment to purchase.

Actual GAAP expenditures have been adjusted to the non-GAAP budgetary basis for budgetary comparison within this report. Because there were no encumbrances outstanding at the end of the year in the Debt Service Fund, the budget for this fund is presented on a GAAP basis.

Budgeted amounts are as originally adopted, or as amended, by Council. Material amendments included amounts for ARRA stimulus grants. Unencumbered appropriations lapse at year end.

The major difference between the budget basis and GAAP is that encumbrances are recognized as expenditures for budgetary purposes.

Individual fund budgetary comparison schedules are presented for the General, Special Revenue and Debt Service Funds at the legal level of control. Due to the length of the presentation, General Fund budgetary comparisons at the legal level of control are presented in a supplemental budget report on pages 88-90.

NOTE C - DEPOSITS AND INVESTMENTS

Deposits:

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Consolidated Government's deposits may not be returned or the Consolidated Government will not be able to recover collateral securities in the possession of an outside party. The Consolidated Government's policy requires deposits in excess of the Federal Deposit Insurance Corporation (FDIC) to be 110 percent secured by collateral valued at market or par, whichever is lower. Collateral agreements must be approved prior to deposit of funds as provided by law. The city council approves and designates the authorized depository institution based on evaluation of solicited responses and certifications provided by financial institutions and recommendations of an evaluation committee and/or the City Finance Director.

As of June 30, 2010 the Consolidated Government's bank balance was \$36,486,611. Of that balance, \$33,742,575 was exposed to custodial credit risk and is categorized as follows:

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

Collateralized by securities held by the
Pledging financial institution \$28,043,798

Collateralized by securities held by the pledging financial
Institution's trust department or agent but not in the Consolidated
Government's name \$ 5,698,777

Investments:

As of June 30, 2010, the Consolidated Government had the following investments:

Investment Type	Fair Value	Cost	Average Credit Quality	Weighted Average Maturity (Years) (2)
Primary Government				
Georgia Fund One	\$ 113,918,703	\$ 113,918,703	AAAm	0.11
Mortgage Backed Securities (1)	92,052,442	91,821,763	AAA	1.60
U.S. Government Agencies	25,716,745	25,716,946	AAA	0.34
Certificates of Deposit	<u>16,531,681</u>	<u>16,531,681</u>	AAA	1.79
	<u>\$ 248,219,571</u>	<u>\$ 247,989,093</u>		
Fiduciary Funds				
Common Stocks	\$ 98,304,521	\$ 100,050,365	N/A	N/A
Corporate Bonds	28,619,269	27,361,912	BBB	0.50
U.S. Government Obligations	29,726,130	28,037,226	N/A	0.46
U.S. Government Agencies	8,862,672	7,348,549	AAA	0.12
Mortgage Backed Securities	5,591,179	5,742,194	AAA	0.40
Mutual Funds	19,217,139	23,187,515	N/A	N/A
Cash Funds	<u>20,820,137</u>	<u>20,820,137</u>	N/A	N/A
	<u>\$ 211,141,047</u>	<u>\$ 212,547,898</u>		

(1) These include investments highly sensitive to interest rate changes.

(2) **Interest Rate Risk** is estimated using weighted average years.

Investment Policies:

Primary Government

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the Consolidated Government's policy to lessen this risk by limiting investments to the safest types of securities, pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which they will do business, and by diversifying the investment portfolio so that potential losses on individual securities will be minimized.

Interest Rate Risk is the risk that the market value of securities in the Consolidated Government’s portfolio will fall due to changes in general interest rates. The Consolidated Government mitigates its risk to interest rate declines by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter-term securities. In accordance with its investment policy, the Consolidated Government limits the weighted average maturity of each investment type in its investment portfolio to less than five years.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the Consolidated Government’s investment in a single issuer. The Consolidated Government’s investment policy states, that with the exception of statewide investment pools, no more than 20% of the investment portfolio may be invested in any single type of investment.

Custodial Credit Risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Consolidated Government’s investment policy requires that financial institutions and broker/dealers who provide investment services be pre-qualified based on several criteria prior to the commencement of services. All investments and collateral are held by a third party custodian with whom the Consolidated Government has a written custodian agreement. Securities held by the third party custodian are evidenced by safekeeping receipts.

External Investment Pool

Georgia Fund I, created by OCGA 36-83-8, is a stable net asset value investment pool that follows Standard and Poor’s criteria for AAAM rated money market funds and is operated by the Georgia Office of Treasury and Fiscal Services. However, Georgia Fund I, operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool’s primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value which equates to fair value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant’s shares sold and redeemed based on \$1.00 per share. Under Georgia State law, the director of the Office of Treasury and Fiscal Services is responsible for control and safekeeping of instruments of title of the Georgia Fund I.

Fiduciary Funds

The Consolidated Government maintains a Pension and Benefit Trust Fund which accounts for the assets and activities of the Consolidated Government’s pension, major disability, death benefit and other postemployment benefit plans. Investment policies provide for investment manager(s) who have full discretion of all assets allocated to them subject to the overall investment guidelines set out in the policies. Fund performance is evaluated quarterly by the Investment Manager who reports to the governing board. **Custodial Credit Risk** is addressed by contracting with a third party custodian who accepts possession of securities for safekeeping; collects and disburses income; collects principal of sold, matured, or called items; and provides periodic accounting to the Pension Board.

Asset allocation guidelines for the Pension and Benefit Trust Fund are as follows:

Asset Class	Minimum	Maximum	Preferred
Equities	0%	55%	55%
Fixed Income	45%	100%	45%
Cash & Equivalents	0%	100%	5-10%

Interest Rate Risk is addressed by the investment policy requiring that weighted average portfolio maturity may not exceed 20 years.

Credit Risk and **Concentration of Credit Risk** are addressed by the investment policy allowing for certain risk parameters for various portfolio compositions. The Pension and Benefit Trust Fund contractually delegates portfolio managers based on these prescribed portfolio structures.

For fixed income investments, plan assets may be invested up to 15% in bonds rated BBB or better and commercial paper must be rated A1/P1 or better. No more than 50% of the portfolio may be invested in securities with maturities greater than 15 years. Securities of any one company should not exceed 10% of the total manager's portfolio and no more than 25% of each manager's portfolio should be in any one industry.

For equity investments, each portfolio manager's portfolio must contain a minimum of 15 issues with no single issue accounting for more than 5% of the total portfolio. The largest percentage of each portfolio should be in the larger capitalization companies (market capitalization greater than \$5 billion) with limited exposure to small capitalization companies (market capitalization between \$500 million and \$1 billion). The sector weighting for each manager's portfolio shall be the manager's benchmark's weighting or 25% of the portfolio whichever is greater.

Component Units:

Columbus Water Works:

Cash and investments include bank balances and investments that at June 25, 2010 were entirely insured or collateralized by securities held by the Water Works agent in the Water Works name.

The Water Works cash and investments are summarized below.

Investment Type	Fair Value	Cost	Credit Quality Rating	Maturity Dates
Unrestricted investments:				
Certificates of Deposit	\$ 27,666,971	\$ 27,666,971	N/A	Various
Total unrestricted investments	27,666,971	27,666,971

The Consolidated Government bills and collects its own property taxes and also bills and collects taxes for the Muscogee County School System. Collections of the county taxes and remittance of them to the General Fund, Sewer Fund, Paving Fund, Medical Center Fund, Debt Service Fund, Transportation Fund and the school system, are accounted for in the Tax Commissioner Agency Fund. County property tax revenues are recognized when due to the extent that they result in current receivables.

Property taxes are normally levied and due on October 1 and December 1 each year. Collections of property taxes are made throughout the year. Liens may attach to property for unpaid taxes on December 20 after the due date.

NOTE E - PROPERTY, PLANT AND EQUIPMENT

The following is a summary of capital asset activity as of June 30, 2010:

Primary Government:

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

The Consolidated Government adopted a capitalization threshold of \$5,000 for capital assets, a threshold of \$250,000 for infrastructure assets and a threshold of \$50,000 for intangible assets. There were road donations by developers to the Consolidated Government during the current year recorded as infrastructure assets. Road projects consisted of resurfacing, general repairs and maintenance. In the current year the Consolidated Government has retroactively reported computer software as required by Governmental Accounting Standards Board Statement No. 51 regarding intangible asset reporting. Easements are not retroactively reported as they are permanent in nature and have indefinite useful lives.

A summary of business-type capital asset activity at June 30, 2010 follows:

	Balance June 30, 2009	Increases	Decreases	Balance June 30, 2010
Capital assets, not being depreciated:

Total Depreciation Expense – Business-type Activities \$ 3,273,017

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight line method. Depreciation has been calculated on the capital assets using the following useful lives:

Plant, Buildings, and Improvements	5 - 40 Years
Machinery and Equipment	5 - 15 Years
Furniture and Fixtures	5 - 20 Years
Vehicles	7 - 10 Years
Infrastructure (Roads)	20 Years

NOTE F - COMMUNITY DEVELOPMENT BLOCK GRANT FUND

The Community Development Block Grant Fund makes requests for funding to the Department of Housing and Urban Development (HUD) based upon the projected use of funds for a specified period. Upon acceptance, an entitlement or credit for funds is granted which can be drawn upon as expenditures are incurred.

The Consolidated Government administers the HOME Program and the Community Housing Development Program. The HOME Program is accounted for in the Home Program Grant Fund and the Community Housing Development Program is accounted for in the Community Development Block Grant Fund. The Consolidated Government has inventory of land for resale aggregating \$4,078,280 at lower of cost or market.

The Community Development Block Grant Fund administers grants of federal and local funds with the aim of community vitalization. As of June 30, 2010, there were four loan programs in progress. During a prior year the Consolidated Government initiated the use of a revolving loan fund to manage the loans, the Economic Development Fund. Loans outstanding as of June 30, 2010 are summarized in the following paragraphs:

Small Business Revolving Loan Program

The Economic Development Program Fund is responsible for administering the Small Business Revolving Loan Program. These loans

are issued to minority businesses at a reduced rate of interest. During a prior year, the Consolidated Government paid off the outstanding balances at each of the participating financial institutions and took responsibility of the entire remaining balance on each loan. All program income generated from the outstanding balances of the loans reverts to the Consolidated Government. The current balance is \$37,732. An allowance of \$37,732 has been recognized for this loan.

Vista Center

A loan for the Vista Center Partners was made to develop and build a shopping complex in an economically deprived area. It is repayable in quarterly installments of \$2,324 at 4.65% per annum, and the remaining unpaid principal and interest are due in January 1999. The loan was made in 1990 for \$150,000 and the current balance is \$41,829.

Community Housing Improvement Program (CHIP)

At the Federal level, CHIP has been replaced by the HOME Program and no new federal funds are available for the program; however, new loans continue to be made at the local level with CHIP program income. Four types of loans are available through CHIP: Deferred Loans, First-time Home Buyers Loans, Historic Preservation Loans and Rehabilitation Loans. The Deferred loans are payable in full upon the sale of the property or death of the owner, whichever comes first. First-time Home Buyer loans and Historic Preservation loans are low interest bearing loans payable in monthly installments over a five or ten year period. The Rehabilitation loans are forgivable over a five or ten year period based on the original loan amount. If the property is sold before the forgiveness period is complete, the loan balance is due in full. As of June 30, 2010 there was 1 Historic Preservation loan in the amount of \$34,179.

As each of the above loans is repaid, the funds will be available to be used by the Consolidated Government of Columbus within the guidelines of the Community Development Block Grant Program.

NOTE G - URBAN DEVELOPMENT ACTION GRANT FUND

During the fiscal year 1988, the Consolidated Government established the Urban Development Action Grant Fund to administer Urban Development Grants and Loan Programs.

As of June 30, 2010, there were five loan programs in progress, as noted below:

Urban Development Action Grant (UDAG) Phase I

Mortgage loans were made to qualifying lower income applicants for first-time purchases of houses. The loan to each borrower consisted of principal of \$10,000, with rates of interest varying among borrowers, based upon a 30-year amortization schedule with the first payment due five years after the date of the loan. There are no new loans presently being made. Loans in the amount of \$1,000,000 were originally recorded. At June 30, 2010, 5 loans were being serviced in the amount of \$8,979.

Urban Development Action Grant (UDAG) Phase II

Mortgage loans were made to qualifying lower income applicants for first-time purchases of houses. The loan to each borrower consists of principal of \$10,000, with rates of interest varying among borrowers, based upon a 30-year amortization schedule with the first payment due five years after the date of the loan. There are no new loans presently being made. Loans in the amount of \$2,000,000 were originally recorded. At June 30, 2010, 18 loans were being serviced in the amount of \$26,901.

Urban Development Action Grant Mini-UDAG Phase III

This program relies on repayment of funds from the Phase I and Phase II Urban Development Action Grant. Terms are similar to Phase I and Phase II. Loans totaling \$1,990,000 have been made. At June 30, 2010, 47 loans are being serviced in the amount of \$181,147.

Urban Development Action Grant (UDAG) Phase IV

This program relies on repayment of funds from the Phase I, Phase II and Phase III Urban Development Action Grants. The second mortgage loan amount is \$5,000 with no interest and is payable over a 30-year term with payments of \$13.89 per month. At June 30, 2010, 83 loans are being serviced in the amount of \$273,274.

Urban Development Action Grant (UDAG) Phase V

This program relies on repayment of funds from Phase I, Phase II, Phase III and Phase IV Urban Development Action Grants. The second loan amount is \$5,000 with no interest and is payable over a 15-year term with payments of \$27.78 per month. At June 30, 2010, 21 loans are being serviced in the amount of \$52,830.

As each of the above loans is repaid, the funds will be available to be used by the Consolidated Government of Columbus within the guidelines of the Urban Development Action Grant Program.

NOTE H - HOME PROGRAM GRANT FUND

During a prior year, the Consolidated Government established the Home Program Grant Fund to administer HOME Program Grants and Loan Programs.

As of June 30, 2010, there were four loan programs in progress, as noted below:

First-time Home Buyers Program

Deferred mortgage loans were made to qualifying very low to low income applicants for first-time purchases of houses. The loan to each borrower consisted of principal of \$5,000 or \$10,000. The loans are forgivable at 20% and 10% per year based on the original amount. If the property is sold prior to the loans forgiveness period being complete, that portion of the loan outstanding is due in full. As of June 30, 2010, there were 500 First-time Home Buyers loans in the amount of \$1,755,000.

Rehabilitation Program

Deferred rehabilitation loans were made to qualified property owners who rent the majority of property to very low to low income tenants. The loan to each borrower varied depending on the amount of rehabilitation necessary to the building up to a maximum per unit of \$20,000 with the property owner required to provide 15% of total project costs. Very low-income property owners who also live on the property in conjunction with renters are not required to provide any project costs. The loans are forgivable at 10% per year. If the property is sold prior to the loan forgiveness period being complete, that portion of the loan outstanding is due in full. As of June 30, 2010, there were 87 Rehabilitation loans in the amount of \$2,610,612.

New Construction Program

Deferred loans were made to qualified property owners for new construction who rent the majority of the units to very low to low income tenants. The loans are deferred for a maximum of twenty years and then forgiven at a rate of 10% per year after the deferral period. If the property is sold prior to the forgiveness period being complete, that portion of the loan outstanding is due in full. As of June 30, 2010, there was a New Construction loan in the amount of \$1,000,000.

American Dream Down Payment Initiative Program (ADDI)

Deferred mortgage loans were made to qualifying very low to low income applicants for purchases of houses in one of the City's designated Redevelopment Areas. The loan to each borrower consisted of principal of \$10,000. The loans are forgivable at 20% per year based on the original amount. If the property is sold prior to the loan's forgiveness period being complete, that portion of the loan outstanding is due in full. At June 30, 2010, 58 loans being serviced in the amount of \$338,000.

NOTE I - OPERATING LEASES

The government is committed under various leases for machinery and equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures and outstanding obligations for the year were not significant.

NOTE J - LONG TERM DEBT

Primary Government

Bonds payable at June 30, 2010 are comprised of the following individual issues:

Columbus Building Authority Bonds:

\$7,850,000 1997A Various Purpose serial Bonds due in annual installments of \$244,500 to \$622,000 through April 1, 2017; interest at 5.1 to 5.65 percent (Paid out in the current year).

\$11,090,000 1999A Refunding Issue serial bonds due in annual installments of \$100,000 to \$1,115,000 through June 1, 2012; interest at 4.0 to 4.2 percent (\$515,596 outstanding).

\$9,585,000 1999C Taxable Various Purpose serial bonds in annual installments of \$305,000 to \$870,000 through August 1, 2019; interest at 6.1 to 6.85 percent (\$6,590,000 outstanding).

\$31,599,203 2003A Various Purpose serial bonds in annual installments of \$602,826 to \$2,035,072 through January 1, 2033; interest at 2.5 to 4.75 percent (\$28,414,058 outstanding).

\$10,575,000 2003B Various Purpose serial bonds in annual installments of \$160,000 to \$790,000 through January 1, 2033; interest at 5.5 to 5.8 percent (\$9,710,000 outstanding).

\$21,560,544 2010A Various Purpose and refunding serial bonds due in annual installments of \$490,437 to \$2,761,994 through January 1, 2020; interest at 1.0 to 3.5 percent (\$21,560,544 outstanding).

\$72,320,000 2010B Taxable Various Purpose Build America Bonds – Direct Payment due in annual installments of \$2,605,000 to \$5,005,000 through January 1, 2040; interest at 4.7 to 6.0 percent (\$72,320,000 outstanding).

\$2,090,000 2010C Taxable Various Purpose Recovery Zone Economic Development Bonds – Direct Payment due in annual installments of \$62,700 to \$2,090,000 through January 1, 2040; interest at 6.0 percent (\$2,090,000 outstanding).

The Consolidated Government has an agreement with the Columbus Building Authority whereby all assets purchased through the Columbus Building Authority are leased to the Consolidated Government. The Consolidated Government services the Building Authority's debt in lieu of making rental payments.

Under the Build America Bond – Direct Payment program the Consolidated Government will receive a federal subsidy through a refundable tax credit paid to state or local issuers by the Treasury Department and the Internal Revenue Service in an amount equal to 35 percent of the total coupon interest payable to investors in these taxable bonds. Under the Recovery Zone Economic Development Bond program the Consolidated Government will receive a federal subsidy through a refundable tax credit paid to state or local governmental issuers in an amount equal to 45 percent of the total coupon interest payable to investors in these taxable bonds. Debt service on the bonds is not contingent on the receipt of these subsidies. The annual debt service requirements to maturity reflects total interest payments for these bond issues.

Riverwalk/Combined Sewer Project:

\$4,650,000 1991 Participation in Water and Sewer Revenue Bonds, due in annual installments of \$125,000 to \$400,000 through May 1, 2012; interest at 6.0 to 6.75 percent (\$775,000 outstanding). Ordinance 91-81 provides that the Consolidated Government will make payments of amounts equal to 125% of amortization installments required.

Notes Payable:

\$14,465,000 notes payable pursuant to a loan guarantee by HUD under Section 108 of the Housing and Urban Development Act of 1974 due in annual installments of \$400,000 to \$750,000 through August 1, 2016; interest at 5.87 to 7.08 percent. During the previous year, this loan was refinanced in the amount of \$6,000,000 due in annual installments of \$750,000 through August 1, 2016; interest at 2.62 to 4.48 percent. (\$5,250,000 outstanding).

The annual debt service requirements to maturity of the Primary Government's General Obligation Bonds, Revenue Bonds and Notes Payable outstanding as of June 30, 2010 are as follows:

Year Ending June 30		Bonds Payable		
		Principal	Interest	Total
2011	1.00 - 6.35%	2,416,455	6,875,525	9,291,980

Compliance:

There are a number of limitations and restrictions in the various bond indentures. The Consolidated Government is in compliance with all significant limitations and restrictions.

Changes in Long Term Obligations:

The following is a summary of changes in long-term obligations of the Consolidated Government's Governmental Funds for fiscal year ended June 30, 2010:

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

Governmental activities:					
	July 1, 2009	Additions	Payments/ Retirements	June 30, 2010	Due Within One Year
Building Authority Bonds	51,139,998	95,970,544	(5,910,344)	141,200,198	2,416,454
Water and Sewer Bonds	1,125,000	-	(350,000)	775,000	375,000
Compensated Absences	7,456,069	7,731,627	(7,456,069)	7,731,627	3,451,704
Claims and Judgments	1,740,000	2,760,000	(1,740,000)	2,760,000	1,500,000
Notes Payable	6,000,000	-	(750,000)	5,250,000	750,000
Workers Compensation	3,869,873	4,086,872	(3,869,873)	4,086,872	1,660,120
Net OPEB Obligations	3,632,707	9,447,806	(3,632,707)	9,447,806	-
Closure - Wilson Camp Landfill	4,816,519	57,798	-	4,874,317	-
Total	<u>\$ 79,780,166</u>	<u>\$ 120,054,647</u>	<u>\$ (23,708,993)</u>	<u>\$ 176,125,820</u>	<u>\$ 10,153,278</u>
Business-type activities:					
Compensated Absences	478,004	472,614	(478,004)	472,614	284,989
Net OPEB Obligations	321,068	763,459	(321,068)	763,459	-
Landfill Closure/Postclosure	7,298,482	369,158	(89,246)	7,578,394	93,014
	<u>\$ 8,097,554</u>	<u>\$ 1,605,231</u>	<u>\$ (888,318)</u>	<u>\$ 8,814,467</u>	<u>\$ 378,003</u>

Compensated absences are liquidated by those funds that have salary and wages expenditures. Those funds are: General Fund, Sewer Fund, Paving Fund, Emergency Telephone, Community Development Block Grant Fund, Home Program Fund, Multi-Government Grant Fund, Job Training Partnership Program Fund, County Drug Abuse Treatment Fund, Integrated Waste Management Fund, Transportation Fund, Parking Management Fund, Civic Center Fund. Claims and judgments typically are liquidated in the General Fund. Workers Compensation payments are liquidated in the Risk Management Fund. The Net Other Postemployment Benefits Obligation is liquidated primarily by the General Fund, Integrated Waste Management Fund, Transportation Fund and Civic Center Fund.

Workers Compensation:

Governmental Accounting Standards Board Statement No. 10 requires a liability of claims be reported if it is probable that a loss has

been incurred and the amount can be reasonably estimated. As of June 30, 2010, the value of workers compensation claims payable is \$4,086,872 which is a long-term obligation payable in future years.

Closure – Wilson Camp Landfill

The Wilson Camp landfill was privately owned and used by the Consolidated Government and others until 1985. Portions of the landfill were closed in accordance with Georgia Environmental Protection Division (EPD) rules. However, approximately 70 acres was not properly closed due to private ownership. The Consolidated Government purchased the 70 acres with the intent to close the remainder of the landfill. Plans for closure have been prepared and submitted for review to the Georgia Environmental Protection Division. A permit for closure was issued during the current year. The Consolidated Government is currently working on the necessary documents and contracts to bid out the work required for closure of this landfill.

Landfill Closure and Postclosure Care Costs

State and federal laws require the Columbus Consolidated Government to close its landfill once its capacity is reached, and to monitor and maintain the site for thirty subsequent years. The Columbus Consolidated Government accounts for its landfill activity in a proprietary fund as required by state law.

On June 1, 1998, the Columbus Consolidated Government opened the Pine Grove Landfill. The old landfill (Schatulga Road Landfill) reached full capacity during a prior year.

As of June 30, 2010, the estimated liability for landfill closure and postclosure care costs is \$7,578,394, based on the following: 100.00% of landfill capacity used to date at the Schatulga Road Landfill and 25% of landfill capacity used to date at the Pine Grove Landfill. The remaining estimated liability is \$14,872,164 at the Pine Grove Landfill which will be recognized as the remaining 420 months (35 Years) capacity is used. The estimated costs of closure and postclosure care are subject to changes due to the effects of inflation, revision of laws, and other variables.

Current Refunding

On January 1, 2010 the Columbus Consolidated Government current refunded the Series 1997A various purpose bonds in order to obtain debt service savings. A total of \$4,360,000 was obtained from a portion of the proceeds from the sale of the 2010A bonds and deposited with a paying agent for call and redemption of the 1997A bonds within 90 days of the bond date. On April 1, 2010, the 1997A bonds were called and paid in full. The transaction resulted in economic gain of \$50,394 and a reduction of \$694,643 in future debt service payments.

Prior Year Advance Refundings

In prior years, the Columbus Consolidated Government advance refunded certain Columbus Building Authority revenue bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Columbus Consolidated Government's financial statements. On June 30, 2010, \$16,235,000 of bonds outstanding are considered defeased.

Long-Term Debt - Component Units:

Trade and Convention Center:

Revenue Bonds:

\$5,355,797 2003A Trade Center serial bonds due in annual installments of \$102,174 to \$344,928 through January 1, 2033; interest at 2.5 to 4.75 percent (\$4,815,942 outstanding).

\$25,000,000 Clean Water State Revolving Loan Fund due in seventy-seven (77) quarterly installments, commencing 6 months after completion of construction; interest accrues at 3 percent from date of each draw. (\$24,620,901 outstanding)

\$7,000,000 Drinking Water State Revolving Loan Fund due in seventy-seven (77) quarterly installments, commencing 6 months after completion of construction; interest accrues at 3 percent from date of each draw. (\$7,142,483 outstanding).

Bond Covenants

The various bond indentures contain significant limitations and restrictions on annual debt service requirements, maintenance of and flow of monies through various restricted accounts, minimum amounts to be maintained in various sinking funds, and minimum revenue bond coverage. Columbus Water Works is substantially in compliance with all such significant limitations and restrictions.

The annual requirements to maturity of the Columbus Water Works Revenue Bonds and Notes Payable outstanding as of June 25, 2010 are:

NOTE L - INTERFUND BALANCES AND TRANSFERS

The composition of interfund balances as of June 30, 2010, is as follows:

Due to/from other funds:

Due to General Fund from:

Medical Center Fund	\$ 5,155,335
Civic Center Fund	668,728
Nonmajor governmental funds	<u>1,428,154</u>
Total due to General Fund from other funds	<u>\$ 7,252,217</u>

Due to 1999 Sales Tax Projects Fund from:

Nonmajor governmental funds	<u>\$ 386,380</u>
-----------------------------	-------------------

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

Due to Civic Center Fund from:	
Nonmajor governmental funds	<u>\$ 123,154</u>
Due to Nonmajor Governmental Funds from:	
1999 Sales Tax Projects Fund	<u>\$ 62,318</u>
Due to Internal Service Funds from:	
General Fund	\$ 1,677,736
Integrated Waste Management Fund	118,075
Civic Center Fund	8,334
Nonmajor governmental funds	246,616
Nonmajor proprietary funds	<u>87,234</u>
Total due to Internal Service Funds from other funds	<u>\$ 2,137,995</u>
Due to Fiduciary Funds from:	
General Fund	\$ 905,043
Integrated Waste Management Fund	21,795
Nonmajor governmental funds	132,129
Nonmajor proprietary funds	<u>23,036</u>
Total due to Fiduciary Funds from other funds	<u>\$ 1,082,003</u>

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

Transfers to General Fund from:	
Nonmajor governmental funds	<u>\$ 2,500,000</u>
Transfers to 1999 Sales Tax Projects Fund from:	
Nonmajor governmental funds	<u>\$ 126,906</u>
Transfers to Integrated Waste Management Fund from:	
General Fund	<u>\$ 330,514</u>
Transfers to Civic Center Fund from:	
Nonmajor governmental funds	<u>\$ 1,227,346</u>

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

Transfers to Internal Service Funds from:	
General Fund	3,072,000
Integrated Waste Management Fund	80,000
Nonmajor governmental funds	120,000
Nonmajor enterprise funds	<u>115,000</u>
Total Transfers to Internal Service Funds from other funds	<u>\$ 3,387,000</u>

Transfers to Nonmajor governmental funds from:	
General Fund	1,216,363
Nonmajor governmental funds	<u>7,408,904</u>
Total Transfers to Nonmajor governmental funds from other funds	<u>\$ 8,625,267</u>

Interfund transfers consist of transactions to record funding for risk management activities, inmate health care, capital projects and Civic Center operations. There are also transfers of sales tax proceeds to fund various sales tax supported capital projects.

NOTE N – ACCOUNTING CHANGES/RESTATEMENT OF NET ASSETS

Government Wide

The Government Wide Net Assets – Beginning is being restated due to the retroactive reporting of intangible assets as required by Governmental Accounting Standards Board Statement No. 51 in the amount of \$443,680. It was also determined during the current year that an allowance for doubtful accounts for taxes receivable should have been recorded in prior periods for taxes in litigation in the amount of \$1,154,751.

Transportation Fund

It was determined during the current year that various asset disposals from prior years had not been recorded.

The effect of these changes to Net Assets is presented as follows:

	Government Wide	Proprietary Fund Transportation Fund
Net Assets as originally reported 6/30/09	\$ 564,406,708	\$ 8,169,872
Effect of restatement	<u>(711,071)</u>	<u>(30,060)</u>
Net Assets as restated 6/30/10	<u>\$ 563,695,637</u>	<u>\$ 8,139,812</u>

NOTE O - DEFICIT BALANCES

The JTPA fund has a deficit fund balance as of June 30, 2010 of \$3,740. The deficit is attributable to a disallowed cost from a prior year. Upon closure of the fund, the General Fund will provide funding to eliminate the deficit.

The Family Connection Partnership Fund has a deficit fund balance as of June 30, 2010 of \$2,538. The deficit is attributable to an over-expenditure of the grant from the State of Georgia, Department of Human Resources. The deficit will be recovered from donations.

The Medical Center Fund has a deficit fund balance as of June 30, 2010 of \$5,200,977. The deficit is attributable to payment for medical care of city prisoners and payment of 3 mills of tax regardless of collection per contract with the Medical Center. The General Fund will provide funding to eliminate the deficit in future years.

NOTE P - COMMITMENT - HEALTH AND HUMAN SERVICES FACILITIES

The Columbus Consolidated Government is obligated under Georgia State Law (31-3-9) to "provide the county board of health with quarters and equipment sufficient for its operation." Effective July 1, 1997, the Columbus Consolidated Government is obligated to provide funds for rent in the amount of \$295,578 annually to the Medical Center Hospital Authority on behalf of the Columbus Health Department.

The Consolidated Government also has contracted with the Authority for the provision of medical care to indigent residents and prisoners of city jails. The annual cost to the City is 3 mills times the value of taxable real and personal property comprising the tax digests of the City. In addition to this special levy, if the annual cost of prisoner medical care exceeds \$500,000, the Consolidated Government will pay one-half of the excess cost. During the year ended June 30, 2010, funds remitted to the Medical Center Hospital Authority totaled \$13,472,471. This financial arrangement is effective for thirty years commencing July 1, 1992.

NOTE Q - COMMITMENTS - CONSTRUCTION CONTRACTS

The Consolidated Government is under obligation for all material construction contracts in the amount of \$38,466,516 as of June 30, 2010. At that date, \$25,430,657 had been spent, leaving an uncompleted contractual obligation of \$13,035,859. These contracts are connected with the Special Purpose Local Option Sales Tax (SPLOST) and various other projects.

The Consolidated Government pledged a commitment of funds in an amount not to exceed \$3,585,000 to support public infrastructure improvements for the Baker Village revitalization, a 65 year old, low income, housing community of 590 units, during a seven year implementation period, from fiscal years 2007 – 2013. Funding will be provided in equal installments of \$498,714 each year over the seven year period.

NOTE R - CONTINGENCIES

During the 2004 fiscal year, the Columbus Airport Commission, a component unit, issued Series 2003 Airport Refunding Revenue Bonds for the primary purpose of refunding its Series 1994 Airport Improvement Revenue Bonds maturing after January 1, 2004. The Bonds are not deemed to be a debt of the Government. However, the Government has contractually agreed that, should net revenues of the airport be insufficient to pay the principal and interest of the 2003 bonds as the same become due and payable, the Government will provide funds for any such deficiency. The Government will also insure that the balance of the reserve account of the Sinking Fund is maintained at the reserve requirement. The Airport Commission notified the Government that as of June 30, 2010, the Commission had sufficient funds to make the payment required as of July 1, 2010 and also maintain the Reserve Account of the Sinking Fund at the Reserve Requirement.

During the 1993 fiscal year, the Hospital Authority of Columbus, Georgia, a component unit issued Refunding Revenue Anticipation Certificates of \$5,155,000. The certificates are not deemed to constitute a debt of the Government. However, the Government has contractually agreed that, to the extent net revenues of the facilities of the Authority are insufficient to pay debt service on the certificates on a timely basis, it will pay the Authority an amount sufficient to service the debt on a timely basis. Pursuant to the contract, the Government is obligated, to the extent necessary to make payments there under, to levy an ad valorem tax on all taxable property located within the boundaries of the Government within the seven mill limitation authorized by Article 4, Chapter 7 of Title 31 of the Official Code of Georgia Annotated. The certificates were retired during the current fiscal year.

In December of 1985, the Medical Center issued Series 1985 Revenue Bonds to provide funds to insubstance defease the Series 1979 Revenue Anticipation Certificate on which the Consolidated Government was contingently liable.

The Consolidated Government has no liability with regard to the Series 1985 Revenue Bonds.

The contingent and overlapping bonded debt arrangements of the Government are summarized as follows:

Muscogee County School District	\$ 52,015,000
General Obligation Debt	--
Contractual Debt	
Columbus Building Authority	141,200,198
Water and Sewer Authority	775,000
Contractual Contingent Debt	
Columbus Airport Commission	1,745,000
Columbus Water Works	<u>835,637</u>
	<u>\$ 196,570,835</u>

Revenue bonds have been issued in the amount of \$169,185,000, which are supported solely from revenues generated by the Columbus, Georgia, Water & Sewer System, a component unit.

Material revenue is derived from contractual agreements with government agencies and may be subject to retroactive adjustment.

NOTE S - CONTINGENT LIABILITIES - LITIGATION

The Consolidated Government has elected to be self-insured with regard to litigation. The Government does not maintain a funded reserve for potential liability. The Government’s ability to levy and collect taxes provides the basis for funding contingent liabilities relating to litigation.

The Government is party to a substantial number of lawsuits incidental to operations and associations with authorities created by its Charter, some involving substantial amounts. At the balance sheet date, per Counsel, the maximum exposure of all lawsuits totaled \$2,760,000. A potential estimated liability in the amount of \$2,760,000 has been provided for in the financial statements as a long-term portion in the Government Wide Statement of Net Assets.

If the ultimate resolution of these cases results in additional expense to the Government, such expense will be charged to operations when determined. Estimating the results of any litigation contains elements of uncertainty. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the Government. Additional information is included in Note T - Risk Management.

NOTE T - RISK MANAGEMENT

I. Employee Health and Life Insurance Fund

The Consolidated Government has established a Risk Management Fund (an internal service fund) in which losses associated with employee and retiree health claims are accounted for and financed. A commercial health insurance company administers the health claims. Under this program, the employee health care and life insurance fund provides coverage for up to a maximum of \$350,000 for each worker's or retiree's health claim. The Consolidated Government purchases coverage in excess of \$350,000 from the health insurance company by increase in administration charges. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the Consolidated Government participate in the program and make payments to this Fund based on estimates provided through analysis of historical cost information of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophe losses. The claims liability of \$3,084,939 reported in the Fund at June 30, 2010 is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the Fund's claims liability amount in fiscal 2009 and 2010 were:

	Beginning of Fiscal Year <u>Liability</u>	Current Year Claims and Changes <u>in Estimates</u>	Claim Payments	Balance At Fiscal Year-End
2008-2009	\$1,548,043	\$ 14,171,301	\$ (13,327,659)	\$ 2,391,685
2009-2010	\$2,391,685	\$ 16,515,593	\$ (15,822,339)	\$ 3,084,939

II. Workers Compensation and Uninsured Losses

It is the policy of the Consolidated Government not to purchase commercial insurance for certain risks of loss to which it is exposed. Instead, the Consolidated Government believes it more economical to manage its certain risks internally and set aside assets for claim settlement in the Risk Management Fund.

The Risk Management Fund services claims for risk of loss, including general liability, property and casualty, and workers' compensation. The Association of County Commissioners (ACCG) administers the workers' compensation claims. Under this program, all claims payments are made by ACCG with monthly billing to the Consolidated Government. Other services of ACCG include: claims administrative services, risk management information services, loss control and safety, Subsequent Injury Trust Fund, Workers' Compensation Board assessment and actuarial reporting.

All funds of the Consolidated Government participate in the Risk Management Fund. The Risk Management Fund allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund, based on a percentage of each organization's estimated current-year payroll. This charge considers recent trends in actual claims experience of the Consolidated Government as a whole and makes provision for catastrophe losses.

Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

consideration recently settled claims, the frequency of claims, and other economic and social factors. Changes in the balances of claims liabilities for the Risk Management Fund during fiscal 2009 and 2010 were as follows:

	Beginning of Fiscal Year <u>Liability</u>	Current Year Claims and Changes <u>in Estimates</u>	Claim Payments	Balance At Fiscal Year-End
2008-2009	\$ 2,045,729	\$ 2,826,703	\$ (3,201,769)	\$ 1,670,663
2009-2010	\$ 1,670,663	\$ 3,334,976	\$ (3,140,827)	\$ 1,864,812

At June 30, 2010, the Fund held \$3,769,105 in cash and investments designated for payment of these claims.

III. Other

The Consolidated Government covers all other risks of loss not provided for in its internal service funds through the General Fund. These risks include but are not limited to torts, damage and destruction of assets. Current claims expenditures and liabilities are recognized and paid in the General Fund. The long-term portion is recognized in General Long-Term Debt.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not settled. At June 30, 2010 the amount of these liabilities was \$2,760,000. This liability is the Consolidated Government's best estimate based on available information. Changes in liabilities during fiscal 2009 and 2010 were as follows:

	Beginning of Fiscal Year <u>Liability</u>	Current Year Claims and Changes <u>in Estimates</u>	Claim Payments	Balance At Fiscal Year-End
2008-2009				
General Fund	\$ -	\$ 886,559	\$ (886,559)	\$ -
Long-Term Debt	<u>3,705,000</u>	<u>(1,965,000)</u>	<u>-</u>	<u>1,740,000</u>
	<u>\$ 3,705,000</u>	<u>\$ (1,078,441)</u>	<u>\$ (886,559)</u>	<u>\$ 1,740,000</u>
2009-2010				
General Fund	\$ -	\$ 231,726	\$ (231,726)	\$ -
Long-Term Debt	<u>1,740,000</u>	<u>1,020,000</u>	<u>-</u>	<u>2,760,000</u>
	<u>\$ 1,740,000</u>	<u>\$ 1,251,726</u>	<u>\$ (231,726)</u>	<u>\$ 2,760,000</u>

Additional information is provided in Note S, contingent liabilities litigation.

NOTE U - BENEFIT PLANS

The Government has established a Major Disability Income Plan and a Death Benefit Plan administered through the Pension Benefit Fund of the Government. In addition to the employees of the Consolidated Government, these plans are made available to the employees of the Columbus Water Works, the Airport Commission and the Hospital Authority.

The Major Disability Plan provides benefits to full-time employees who become disabled due to sickness or injury. The benefit is 60% of monthly compensation averaged over the past year reduced by other disability payments.

Employer contributions are determined on an annual basis by actuarial valuation. Employee contributions are not permitted. The Government's 2010 contribution was \$70,891 and was actuarially determined to be \$70,891.

The Death Benefit Plan provides life insurance for retirees who, on the day prior to retirement under the Columbus, Georgia Employees' Retirement Fund, are insured for group life insurance under the Columbus, Georgia Employees' Group Insurance Plan. A benefit for spouses, and for children and grandchildren under age 19 (age 23, if in school), is available with the payment of a monthly premium.

Employer contributions to the Plan are determined annually by actuarial valuation. The actuarial cost method used to determine the contribution amount and actuarial accrued liability was the aggregate actuarial cost method.

Under the aggregate actuarial cost method, the Normal Cost is computed as the level percentage of pay which, if paid from the valuation date until each participant's retirement or termination date, will, together with the assets of the plan accumulate with interest at the rate assumed in the valuation to a fund sufficient to pay all benefits under the plan. Significant actuarial assumptions are (1) 7.0% per annum return on investment and (2) 3.25% per annum earnings progression.

Experience gains or losses, i.e., decreases or increases in liabilities attributable to deviations in experience from the actuarial assumptions, are spread into the future, increasing or decreasing normal cost for future years.

The valuation included all active employees currently participating in one of the Government-sponsored retirement plans, as well as retired participants and their dependents who were covered by group life insurance under the Columbus, Georgia Employees' Group Insurance Plan immediately prior to their retirement. There were 2,727 active participants as of June 30, 2009. The Government's 2010 contribution to the Plan was \$120,326 and was actuarially determined to be \$120,326.

As of June 30, 2009, the actuarial accrued liability of the Death Benefit Plan was \$3,795,502. The actuarial value of the assets available in the Death Benefits Plan is \$2,476,694. The unfunded actuarial present value of all benefits for the Death Benefit Plan was \$1,318,808.

The benefit provisions and all other requirements are established by state statute and local ordinance.

NOTE V - EMPLOYEES AND PUBLIC SAFETY RETIREMENT PLANS

The Consolidated Government maintains two non-contributory, defined benefit pension plans (PERS); one single employer plan covering the sworn officers of the Department of Public Safety, correctional officers and law enforcement officers of the Muscogee County Sheriff's Department and law enforcement officers of Parks Security (PERS A); and one multi-employer plan covering substantially all other full time employees of the Consolidated Government, the Columbus Water Works, the Airport Commission, the Hospital Authority, the Columbus Trade and Convention Center, and Bull Creek Golf Course Authority (PERS B).

Summary of Significant Accounting Policies and Plan Asset Matters:

Basis of Accounting. The Consolidated Government of Columbus, Georgia PERS financial statements are prepared on the accrual basis of accounting. Contributions from the Consolidated Government are recognized as revenue in the period in which employees provide services to the Consolidated Government. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Methods Used to Value Investments. Investments are reported at fair value. Short-term investments are reported at cost which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value. There are no investments in, loans or leases with parties related to the pension plan.

Funding Policy:

During the 1991 fiscal year, the Consolidated Government effectively repealed all prior funding ordinances and provided for the funding of the plans in accordance with the minimum requirements established by Georgia Law, Title 47 of the Official Code of Georgia, Annotated. Contribution requirements are actuarially determined annually. Active participants are not required to make contributions to the plans. Administrative costs are financed through investment earnings. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

PUBLIC EMPLOYEE RETIREMENT SYSTEM (PERS A)

Plan Description:

Sworn officers of the Department of Public Safety, including employees of the Columbus Police Department, Columbus Fire Department, Emergency Management, Emergency Medical Service, Muscogee County Correctional Institution, correctional officers and law enforcement officers of the Muscogee County Sheriff's Department, participate in the PERS A, single-employer, noncontributory, defined benefit pension plan. Also participating in PERS A are law enforcement officers of the Parks Security Division. The benefit provisions and all other requirements are established by state statute and City ordinance. The Public Employee Retirement System (PERS A) provides retirement, disability and death benefits to plan members and their beneficiaries. The Plan does not issue a separate financial report.

<u>Group</u>	<u>July 1, 2009</u>
Retirees and Beneficiaries currently receiving benefits	408
Vested Terminated Participants	280
Active Employees	1,127

Annual Pension Cost:

For 2010, the required contribution was \$11,172,065. The City's annual pension cost was \$11,229,375 for PERS A and the actual contribution was \$11,177,989. The required contribution was determined as part of the July 1, 2008 actuarial valuation using the frozen entry age actuarial cost method. The actuarial assumptions included (a) 7.0% investment rate of return (net of administrative expenses) and (b) projected salary increases at 3.25% per year and an inflation rate of 2.5 % per year.

The Actuarial Value of Assets is a 3-year smoothing method, established July 1, 1998. One-third of the master trust market value gain or loss for the current year, and two-thirds of the gain or loss from the previous year are recognized in the current year's actuarial value. Gains and losses for all years prior to the previous year are fully recognized. PERS A's unfunded accrued liability is being amortized as a level percentage of project payroll on a closed basis. The Annual Pension Cost was computed as follows:

Annual Required Contribution	\$11,172,065
Interest on Net Pension Obligation	(63,099)
Adjustment to Annual Required Contribution	<u>121,009</u>
Annual Pension Cost	11,229,375
Actual Contribution Made	<u>11,172,065</u>
Increase in Net Pension Obligation	57,310
Net Pension Obligation Beginning of the Year	(909,988)
Net Pension Obligation End of Year	<u>\$ (852,678)</u>

Three Year Trend Information for PERS A:

PUBLIC EMPLOYEE RETIREMENT SYSTEM (PERS B)

Plan Description:

Substantially all of the full-time employees of the Consolidated Government (other than those participating in PERS A), the Columbus Water Works, the Airport Commission, the Hospital Authority, the Columbus Trade and Convention Center, and Bull Creek Golf Course Authority participate in the PERS B, a multiple-employer, noncontributory, cost sharing, defined benefit pension plan. The benefit provisions and all other requirements are established by state statute and city ordinance. The Public Employee Retirement System (PERS B) provides retirement, disability and death benefits to plan members and their beneficiaries. The Plan does not issue a separate financial report. Current membership in the PERS B is comprised of the following:

<u>Group</u>	<u>July 1, 2009</u>
Retirees and Beneficiaries currently receiving benefits	625
Terminated participants entitled to future benefits	569
Active Employees	1,619
Number of Participating employers	6

Annual Pension Cost:

For 2010, the City's required contribution was \$6,775,680. The City's annual pension cost was \$6,775,680 for PERS B and the actual contribution was \$6,775,680. The required contribution was determined as part of the July 1, 2008 actuarial valuation using the Frozen Entry Age actuarial cost method. The actuarial assumptions included (a) 7.0% investment rate of return (net of administrative expenses), (b) projected salary increases of 3.25% per year and an inflation rate of 2.5 % per year.

The Actuarial Value of Assets is a 3-year smoothing method, established July 1, 1998. One-third of the master trust market value gain or loss for the current year, and two-thirds of the gain or loss from the previous year are recognized in the current year's actuarial value. Gains and losses for all years prior to the previous year are fully recognized. PERS B's unfunded accrued liability is being amortized as a level percentage of project payroll on a closed basis. The remaining amortization period at June 30, 2009 was 8 years.

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

The Annual Pension Cost was computed as follows:

Annual Required Contribution	\$ 6,775,680
Interest on Net Pension Obligation	(150,689)
Adjustment to Annual Required Contribution	<u>336,886</u>
Annual Pension Cost	6,961,877
Actual Contribution Made	<u>(6,775,680)</u>
Increase in Net Pension Obligation	186,197
Net Pension Obligation Beginning of the Year	<u>(2,152,704)</u>
Net Pension Obligation End of Year	<u><u>\$ (1,966,507)</u></u>

Three Year Trend Information for PERS B:

NOTE W – OTHER POST-EMPLOYMENT BENEFITS

Plan Description:

During a prior year, the Consolidated Government established the Columbus Retiree Healthcare Plan in the Other Post Employment Benefits Trust Fund. The Consolidated Government of Columbus Retiree Healthcare Plan is a cost sharing multiple-employer benefit healthcare plan for the City, Columbus Trade and Convention Center and Bull Creek Golf Authority administered by the Consolidated

Government. The Plan provides continuation of medical and dental insurance benefits to eligible retirees and their spouses. Retirees under the age of 65 can select the BlueChoice PPO or the BlueChoice Plan (HMO). The benefit provisions and other requirements are established by state statute and city ordinance. The City is self-insured in the provision of pre-65 medical and dental benefits. Upon reaching age 65, for those participants eligible for benefits beyond 65, medical benefits are provided by a fully-insured Medicare Advantage Plan. For participants hired prior to July 1, 2001 medical benefits are provided for the lifetime of the retiree. For participants hired after July 1, 2001, medical benefits are provided until the retiree reaches age 65. The Plan does not issue a separate financial report. Membership of the plan consisted of the following at July 1, 2009:

Retirees and spouses	920
Active Members	1,952
Number of participating employers	3

Funding Policy:

Participants are required to contribute in order to receive benefits under the Plan. Contributions depend on the plan selected and persons covered.

2010 Values:	<u>Blue Choice PPO</u>	<u>Blue Choice HMO</u>
Plan member	\$151.70	\$129.30
Spouse	210.60	186.20
Child	234.00	209.60
Family	257.40	233.00

Contributions for dental coverage are required at the same group rate as active coverage. After age 65, participants receiving coverage under the Medicare Advantage Plan contribute \$90.65 of the \$120.87 monthly cost (2010 values). In fiscal year 2010, the employers contributed \$1,949,953 and Plan members contributed \$1,461,251.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made in the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions:

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefits costs between the city and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Significant methods and assumptions were as follows:

	Columbus Retiree Healthcare Plan
Actuarial valuation date	6/30/2009
Actuarial cost method	Unit Credit
Amortization method	Level dollar, closed
Remaining amortization period	30 years
Asset valuation method	Market
Actuarial Assumptions:	
Investment rate of return	4.82%
Healthcare inflation rate	11.0%, initial - Pre Medicare 5% ultimate

Annual OPEB Cost and Net OPEB Obligation:

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated using the Unit Credit Actuarial Cost Method, which consists of the cost components:

1. The Normal Cost is the Actuarial Present Value of benefits allocated to the valuation year.
2. The Actuarial Liability is the Actuarial Present Value of benefits accrued as of the valuation date.
3. Valuation Assets are equal to the market value of assets as of the valuation date, if any.
4. Unfunded Actuarial Liability if the difference between the Actuarial Liability and the Valuation Assets. It is amortized over the maximum permissible period under Governmental Accounting Standards Board Statement 45 of 30 years.

Consolidated Government of Columbus, Georgia
Notes to Financial Statements
June 30, 2010

The following table show the calculation of the Annual Required Contribution and the Net OPEB Obligation:

	For Fiscal Year Ending	
	<u>June 30, 2010</u>	<u>June 30, 2009</u>
Determination of Annual Required Contribution

6/30/09	\$1,667,569	\$79,378,874	\$77,711,305	2.1%	\$77,876,168	99.8%

- (1) Actuarial liability determined under the unit credit cost method.
- (2) Actuarial liability less actuarial value of assets, if any.

NOTE X- HOTEL/MOTEL LODGING TAX

The Columbus Consolidated Government has levied an 8% lodging tax. The tax was changed from 7% to 8% by an ordinance passed by Council action effective August 1, 2009. A summary of the transactions for the year ending June 30, 2010 follows:

Lodging tax receipts					\$ 4,749,802
Disbursements to:					
Columbus Convention & Visitors Bureau/Sports Council	<u>7%</u>	(168,873)	<u>8%</u>	(2,149,580)	(2,318,453)
Civic Center	2.00%	(112,582)	2.00%	(1,103,093)	(1,215,675)
Columbus Trade & Convention Center	1.00%	(56,291)	1.00%	(551,546)	(607,837)
River Center For The Performing Arts	1.00%	(56,291)	1.00%	(551,546)	<u>(607,837)</u>
Balance of lodging tax funds on hand at end of year					<u><u>\$ -</u></u>

The Columbus Consolidated Government has received audit reports from the Columbus Convention and Visitors Bureau (Component Unit), the Columbus Sports Council and the River Center for the Performing Arts covering the lodging tax monies. The Civic Center (Enterprise Fund) and the Columbus Trade and Convention Center (Component Unit) are a part of the annual audit of the Columbus Consolidated Government. Each entity used the revenue for promotion of tourism as required by the Official Code of Georgia Annotated (OCGA) 48-13-51.

NOTE Y- SPECIAL PURPOSE LOCAL OPTION SALES TAX

On November 2, 1999, the voters of Muscogee County approved a referendum to continue a special one percent retail sales and use tax to raise \$255,441,322 for various capital and road projects. Of the voter-approved total, \$235,500,000 is direct project costs and \$19,941,322 is financing costs. During a prior year, the Director of the Department of Revenue Sales and Use Tax Division notified the Columbus Consolidated Government that sufficient revenues had been collected from the sales tax returns received during September 2008 to satisfy the threshold imposed by the referendum. The original direct project costs budget of \$235,500,000 was increased to \$240,500,000 by Council action in November 2001. The budget was increased to \$241,100,000 by Council action in February 2007. The budget was increased to \$247,178,148 by Council action in July 2007. The budget was increased during the current year to \$269,178,148 by Council action taken in July 2009.

The schedule of projects listed below indicates their current status.

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the process of special revenue sources that are legally restricted to expenditures for specific purpose. The Consolidated Government has twenty special funds based on the revenue source and the program purpose.

Paving Fund - To provide for the maintenance and improvements to the Consolidated Government's roads and bridges.

Sewer Fund - To provide for the operation, maintenance and improvements to the Consolidated Government's storm sewer system.

Medical Center Fund - To provide funding for indigent hospital care for the residents of Columbus.

Community Development Block Grant Fund - To account for grant monies received from the Department of Housing and Urban Development under the Community Development Block Grant Program.

Economic Development Program Fund - To account for monies loaned under the Consolidated Government's revolving loan fund.

Economic Development – Development Authority – To provide funding for economic development activities to include working with local and regional entities in attracting quality companies, working to broaden the Muscogee County tax base, job creation and retention.

Multi-Governmental Project Fund - To account for grant monies received from various federal and state agencies.

Hotel-Motel Tax Fund - To account for hotel/motel tax revenue designated for the funding of the Columbus Convention and Visitors Bureau, River Center for the Performing Arts, Columbus Sports Council, Columbus Trade and Convention Center and the Civic Center.

County Drug Abuse Treatment Fund - To account for additional penalties imposed by Georgia State Law 15-21-100, Article Six designated for drug abuse treatment and education programs relating to controlled substances and marijuana.

Urban Development Action Grant Fund - To account for loans and program income received from the Department of Housing and Development under the Urban Development Action Grant Program.

Job Training Partnership Program Fund - To account for grant monies received from the Department of Labor under the Job Training Partnership Act.

Metro Drug Task Force Fund - To account for monies forfeited under the Controlled Substances Act designated for the joint law enforcement activities of the Columbus Police Department and the Muscogee County Sheriff's Department.

County Jail Fund/Penalty Assessment Fund - To account for monies collected under the Jail Construction and Staffing Act (Ga. L1989 p.1753) to provide for constructing, operating, and staffing jails, correctional institutions and detention facilities of the Consolidated Government.

Police Forfeiture Fund - To account for monies received from federal and state forfeitures designated for police department expenditures.

Sheriff's Forfeiture Fund - To account for monies received from federal and state forfeitures designated for sheriff department expenditures.

Neighborhood Stabilization Program Fund – To account for grant monies received from the Department of Housing and Urban Development under the Housing and Economic Recovery Act (HERA) of 2008.

Emergency Telephone Fund - To account for telephone subscriber surcharge collections and the operations of the Emergency 911 system.

Family Connection Partnership Fund - To account for revenues from the State of Georgia Department of Human Resources to provide funding to the Muscogee County Family Connection.

Home Program Fund - To account for grant monies received from the Department of Housing and Urban Development under the Home Investment Partnership Program.

Columbus Greenspace Trust Fund - To account for monies received from the Department of Natural Resources under the Georgia Greenspace Act.

DEBT SERVICE FUNDS

The Debt Service Funds are utilized to account for the accumulation and disbursement of funds needed to comply with the interest and principal redemption requirements. The Consolidated Government has two Debt Service Funds.

Debt Service Fund - To account for the accumulation and disbursement of funds for the interest and principal redemption requirements of the general obligation bond issues, Columbus Building Authority lease contracts, Water Commissioners revolving loan contract, and the Lease-Purchase Program of the Georgia Municipal Association.

1999 Sales Tax Proceeds Account Fund - To account for the collection and disbursement of the renewal of the 1% Special Local Option Sales Tax (SPLOST) needed to comply with the interest and principal requirements of the general obligation sales tax bonds.

CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources for the acquisition or construction of major capital facilities and improvements other than those financed by Proprietary Funds. The Consolidated Government has nine Capital Projects Funds financed by interfund transfer of general revenues, revenue bonds, loan proceeds and sales tax proceeds.

Special Projects Fund - To account for projects supported by the General, Sewer, Paving, and Integrated Waste Management Funds.

1999 Sales Tax Project Fund - To account for projects supported by the 1999 Sales Tax Proceeds Account including Road projects and acquisition, construction and equipping of various Capital projects.

HUD-Section 108 - To account for proceeds of a loan program guaranteed under Section 108 of the Housing and Urban Development Act of 1974 to provide development within the Second Avenue Redevelopment Area.

Columbus Building Authority Taxable Lease Revenue Bonds, Series 1999C - To account for proceeds of the 1999C taxable lease revenue bonds for Need for Land acquisition and infrastructure and Enterprise Zone land acquisition.

Columbus Building Authority Lease Revenue Bonds, Series 2003A – To account for proceeds of the 2003A lease revenue bonds for construction and equipping of two new fire stations, storm water enhancements, road and street resurfacing/reconstruction, 800 MhZ Tower, Parking Lot/Deck, Skate Park SuperCenter and expansion of the Columbus Georgia Convention and Trade Center.

Columbus Building Authority Taxable Lease Revenue Bonds, Series 2003B – To account for proceeds of the 2003B taxable lease revenue bonds for construction and equipping of two parking garages.

Columbus Building Authority Capital Improvement and Refunding Lease Revenue Bonds, Series 2010A - To account for proceeds of the 2010A refunding lease revenue bonds for construction of an Ice Rink and enhancements to the stormwater infrastructure.

Columbus Building Authority Capital Improvement Lease Revenue Bonds (Taxable –Build America Bonds) Series 2010B – To account for proceeds of the 2010B capital improvement lease revenue bonds for construction of Fire/EMS stations, City Service Center and Parking Garage, Natatorium Swimming facility, Recycling/Sustainability Center, road construction and stormwater enhancements .

Columbus Building Authority Capital Improvement Lease Revenue Bonds (Taxable –Recovery Zone Development Bonds) Series 2010C – To account for proceeds of the 2010C capital improvement lease revenue bonds for construction/reconstruction and resurfacing of local roads, streets and bridges.

PERMANENT FUND

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, for the benefit of the government or its citizens. The Consolidated Government has one permanent fund.

Cemetery Perpetual Care Fund – To account for revenues and maintenance of the Linwood, Riverdale and Porterdale Cemeteries.

PROPRIETARY FUNDS

Proprietary Funds are used to account for governmental business activities. Enterprise Funds account for external activities that are usually self-sustaining, principally through user charges for services rendered. They are operated as a separate enterprise and the accounting records are maintained on the same basis as a commercial business. The Consolidated Government has four Enterprise Funds. Internal Service Funds account for services performed by a central service department for other departments or agencies of the government. The Consolidated Government has two Internal Service Funds.

Transportation System Fund - The Transportation System Fund was established for the control of the operating revenue and expense of the local public transit system.

Parking Management Fund - The Parking Management Fund was established for the purpose of operating the Parking Garage and managing public parking.

Integrated Waste Management Fund - To account for the costs of providing refuse collection and disposal services to the community.

Civic Center Fund - To account for the operation of the South Commons Civic Center.

The Employee Health Care and Life Insurance Fund - The Employee Health Care and Life Insurance Fund was established for the purpose of providing self-funding for medical claims and payment of life insurance premiums.

The Risk Management Fund - The Risk Management Fund was established for the purpose of providing self-funding for vehicle claims and workers' compensation management.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement, either a pension trust fund, a private purpose trust fund or permanent fund is used. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent. The Consolidated Government uses the following fiduciary funds:

Pension Trust Funds are used to account for activities related to the public employee retirement systems. The Consolidated Government maintains a Pension and Benefit Trust Fund which accounts for the assets and activities of the Consolidated Government's pension, major disability, death benefit and other post employment benefit plans.

Agency Funds are used to account for assets held by Consolidated Government as an agent or cash conduit for individuals, private organizations, other governments, and the Consolidated Government departments. The Consolidated Government maintains the following Agency Funds:

Clerk of Superior Court
Clerk of Municipal Court
Probate Court
Adult Probation
Sheriff
Tax Commissioner
Law Library
Magistrate Court

COMPONENT UNITS

Component Units are organizations for which the primary government is financially accountable and organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Consolidated Government of Columbus Georgia reports the following business-type component units:

- Columbus Trade and Convention Center
- Bull Creek Golf Authority
- Oxbow Creek Golf Authority
- Columbus Convention and Visitors Bureau
- Columbus Airport
- Columbus Water Works
- Hospital Authority of Columbus

**STATISTICAL SECTION
(Unaudited)**

STATISTICAL SECTION

This part of Columbus Consolidated Government’s annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

<u>Contents</u>	154-170
Financial Trends	154-157
These schedules contain trend information to help the reader understand how the County’s financial performance and well-being have changed over time.	
Revenue Capacity	158-161
These schedules contain information to help the reader assess the Consolidated Government’s most significant local revenue source, the property tax.	
Debt Capacity	162-165
These schedules contain information to help the reader assess the affordability of the Consolidated Government’s current levels of outstanding debt and the Consolidated Government’s ability to issue addition debt in the future.	
Demographic and Economic Information	166-168
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Consolidated Government’s financial activities take place.	
Operating Information	169-173
These schedules contain service and infrastructure data to help the reader understand how the information in the Consolidated Government’s financial report relates to the services the government provides and the activities it performs.
